Voluson™ E10 – HDfire™ Silhouette helps you with early health assessment

SEE WHAT’S NEW!

Please visit GE Healthcare at AIUM exhibit #1100 to experience new and exciting ultrasound innovations designed to meet your needs. Extraordinary images. Specialized systems. Innovative solutions. Every GE Healthcare ultrasound system is designed with you, your specialty, and your patients in mind. You’re devoted to providing the best patient care. We’re committed to providing technologies to help you excel every day.

For more information, please contact your GE sales representative and call (866) 281-7545.

**SCHEDULE AT A GLANCE**

### Wednesday, March 16, 2016
- **3:00 PM–6:00 PM** Output Standards Subcommittee Meeting
- **7:00 PM–9:00 PM** International Electrotechnical Commission Subcommittee Meeting

### Thursday, March 17, 2016
- **6:30 AM–5:00 PM** Registration Open
- **7:00 AM–7:30 AM** Breakfast
- **7:00 AM–5:00 PM** SonoSlam
- **7:30 AM–3:30 PM** Finance and Executive Committee Meeting
- **2:00 PM–6:00 PM** Technical Standards Committee Meeting
- **5:15 PM–6:00 PM** Ultrasound in Medical Education Special Interest Group Meeting
- **5:30 PM–7:00 PM** Presidential Reception for New Members and Leadership (by invitation only)

### Friday, March 18, 2016
- **6:00 AM** Central Park Run
- **6:30 AM–4:30 PM** Convention Registration Open
- **8:00 AM–9:30 AM** Special Interest Sessions
- **9:45 AM–11:30 AM** Opening Plenary Session, Awards Session, and AIUM Business Meeting
- **11:30 AM–1:00 PM** Grand Opening Luncheon in the Exhibit Hall (Americas Hall I)
- **11:30 AM–4:00 PM** Exhibit Hall Open
- **1:00 PM–2:00 PM** Curriculum Task Force Meeting
- **1:30 PM–2:30 PM** Journal of Ultrasound in Medicine Deputy and Subspecialty Editors Meeting (by invitation only)
- **1:00 PM–3:00 PM** Special Interest Sessions
- **3:30 PM–5:30 PM** Hands-on Special Interest Sessions
- **5:30 PM–6:00 PM** Therapeutic Ultrasound Community Meeting

### Saturday, March 19, 2016
- **6:00 AM** Central Park Run
- **6:30 AM–4:30 PM** Convention Registration Open
- **7:00 AM–8:00 AM** Just Images and Comprehensive Refresher Sessions
- **10:15 AM–11:00 AM** Cardiovascular Ultrasound Community Meeting
- **11:00 AM–12:00 PM** Musculoskeletal Ultrasound Community Meeting
- **11:00 AM–12:30 PM** Special Interest Sessions
- **12:30 PM–1:30 PM** Lunch in the Exhibit Hall (Americas Hall II)
- **12:30 PM–1:30 PM** Clinical Standards Committee Meeting
- **12:30 PM–1:30 PM** Contrast-Enhanced Ultrasound Community Meeting
- **12:30 PM–1:30 PM** Gynecologic Ultrasound Community Meeting
- **12:30 PM–1:30 PM** Presidential Advisory Committee Meeting
- **1:30 PM–3:30 PM** Special Interest Sessions
- **2:30 PM–3:00 PM** Hands-on Special Interest Session
- **3:00 PM–4:00 PM** Ultrasound Practice Accreditation Council Meeting
- **4:00 PM–5:30 PM** Pediatric Ultrasound Community Meeting
- **5:30 PM–6:00 PM** Interventional-Intraoperative Ultrasound Community Meeting
- **5:30 PM–6:00 PM** Special Interest Sessions
- **6:00 PM–7:00 PM** Sonographer Networking Reception (by invitation only)

## General Information

### Registration Hours
**Second Floor Promenade**
- **Thursday, March 17, 2016**: 6:30 AM–5:00 PM
- **Friday, March 18, 2016**: 6:30 AM–4:30 PM
- **Saturday, March 19, 2016**: 6:30 AM–4:30 PM
- **Sunday, March 20, 2016**: 6:30 AM–4:30 PM
- **Monday, March 21, 2016**: 6:30 AM–3:30 PM

### Speaker Ready Room
**New York Suite, Fourth Floor**
- **Thursday, March 17, 2016**: 6:00 AM–5:00 PM
- **Friday, March 18, 2016**: 7:00 AM–5:30 PM
- **Saturday, March 19, 2016**: 6:30 AM–5:30 PM
- **Sunday, March 20, 2016**: 6:30 AM–5:30 PM
- **Monday, March 21, 2016**: 6:30 AM–5:30 PM

### AIUM Resource Center
**Exhibit Hall, Americas Hall I**
- **Friday, March 18, 2016**: 11:00 AM–4:00 PM
- **Saturday, March 19, 2016**: 9:30 AM–4:00 PM
- **Sunday, March 20, 2016**: 9:30 AM–4:00 PM
- **Monday, March 21, 2016**: 9:30 AM–1:30 PM

### AIUM Office Hours
**Fifth Floor**
- **Thursday, March 17, 2016**: 7:30 AM–4:30 PM
- **Friday, March 18, 2016**: 7:30 AM–4:30 PM
- **Saturday, March 19, 2016**: 7:30 AM–4:30 PM
- **Sunday, March 20, 2016**: 7:30 AM–4:30 PM

### Exhibitor Registration Hours
**Second Floor Promenade**
- **Thursday, March 17, 2016**: 6:30 AM–5:00 PM
- **Friday, March 18, 2016**: 7:00 AM–4:30 PM
- **Saturday, March 19, 2016**: 6:30 AM–4:30 PM
- **Sunday, March 20, 2016**: 6:30 AM–4:30 PM
- **Monday, March 21, 2016**: 6:30 AM–1:30 PM

### Exhibit Hall Hours
**Americas Hall I and Americas Hall II**
- **Friday, March 18, 2016**: 11:00 AM–4:00 PM
  - Grand Opening Luncheon *(Americas Hall I)*
  - Coffee Service
  - Lunch *(Americas Hall II)*
- **Saturday, March 19, 2016**: 9:30 AM–4:00 PM
  - Coffee Service
  - Lunch *(Americas Hall I)*
- **Sunday, March 20, 2016**: 9:30 AM–4:00 PM
  - Coffee Service
  - Lunch *(Americas Hall II)*
- **Monday, March 21, 2016**: 9:30 AM–1:30 PM
  - Coffee Service
  - Lunch *(Americas Hall II)*

### E-Poster Viewing Hours
**Americas Hall II**
- **Friday, March 18, 2016**: 11:30 AM–4:30 PM
- **Saturday, March 19, 2016**: 9:30 AM–4:00 PM
- **Sunday, March 20, 2016**: 9:30 AM–4:00 PM
- **Monday, March 21, 2016**: 9:30 AM–1:30 PM

### Hands-on Special Interest Sessions
**Friday, March 18, 2016**
- **8:00 AM–9:30 AM**: Shoulder Ultrasound *(F1)*
- **1:00 PM–3:00 PM**: Elastography *(F2)*
- **3:30 PM–5:30 PM**: Fetal Cardiac Sonography: Basic and Advanced *(F3)*
  - Sold out

**Saturday, March 19, 2016**
- **8:15 AM–10:15 AM**: Evaluation of Chronic Venous Insufficiency *(SA1)*
- **1:30 PM–3:30 PM**: Hip Ultrasound *(SA2)*
- **4:00 PM–5:30 PM**: Carotid and Transcranial Doppler Ultrasound *(SA3)*
  - Sold out

**Sunday, March 20, 2016**
- **8:15 AM–10:15 AM**: Ultrasound Guidance for Critical Procedures *(S1)*
- **1:30 PM–3:30 PM**: How to Do the Biopsy: From Simple to Sophisticated *(S2)*
- **4:00 PM–5:30 PM**: Knee and Ankle Ultrasound, Including Regional Peripheral Nerves *(S3)*
  - Sold out
GENERAL INFORMATION

Badges
For those attendees who have registered in advance, your badge and registration materials will be held for you at the AIUM Advance Registration Desk, located at the New York Hilton Midtown Promenade, second floor.

Lost or Forgotten Badge
If you need to replace a lost or forgotten badge, a $25 fee will apply.

Spouse and Guest Registration
You may register a spouse/guest for $220, which provides access to the Exhibit Hall, including lunches and breaks.

Children
Children are not permitted in the exhibit hall or educational sessions.

Hotel Information
The New York Hilton Midtown is conveniently located in the heart of Midtown Manhattan, just steps away from New York City’s most popular attractions and shopping destinations. This Midtown Manhattan hotel offers a wealth of services and amenities and an intimate experience. The hotel’s stylish guest rooms provide a refreshing night’s rest in the city that never sleeps. Although many organizations and associations use an outside travel agency to negotiate contracts, the AIUM negotiates its own contracts, and any discounts are paid directly to the AIUM. Income from the discounts allows the AIUM to offset expenses and provide enhanced services to attendees.

Videotaping and Photography Policy
The AIUM does not allow any unauthorized videotaping or photography during the AIUM Annual Convention and Preconvention Program. The AIUM reserves the right to photograph or videotape any exhibits or attendee for use in promotional materials or AIUM publication.

Smoking Policy
The Hilton New York Midtown is a smoke-free environment.

Need Help?
If you have questions during the convention, look for the blue AIUM shirts. The AIUM staff will be wearing these shirts throughout the duration of the convention.

Hotel Address
New York Hilton Midtown
1355 Avenue of the Americas
New York, NY 10019 USA
212-586-7000

A spectacular location in the heart of midtown Manhattan.
Community and Interest Group Meeting Schedule

Thursday, March 17, 2016
5:15 PM–6:00 PM  Ultrasound in Medical Education
Concourse G

Friday, March 18, 2016
5:30 PM–6:00 PM  Therapeutic Ultrasound
Concourse A

Saturday, March 19, 2016
10:15 AM–11:00 AM  Cardiovascular Ultrasound
Beekman
10:15 AM–11:00 AM  Elastography
Sutton Center
10:15 AM–11:00 AM  Neurosonology
Sutton South
11:00 AM–12:30 PM  General and Abdominal Ultrasound
East
11:00 AM–12:00 PM  Musculoskeletal Ultrasound
Regent
12:30 PM–1:30 PM  Contrast-Enhanced Ultrasound
Concourse F
12:30 PM–1:30 PM  Gynecologic Ultrasound
Grand Ballroom West
2:30 PM–3:00 PM  Pediatric Ultrasound
Sutton North
3:00 PM–4:00 PM  Interventional/Intraoperative Ultrasound
Sutton Center
4:00 PM–5:30 PM  Ultrasound in Global Health
Concourse G
5:30 PM–6:00 PM  Sonography
Gibson

Sunday, March 20, 2016
7:00 AM–8:00 AM  Council on Communities Meeting
East
10:15 AM–11:00 AM  Basic Science and Instrumentation
Concourse A
12:30 PM–1:30 PM  Fetal Echocardiography
Sutton north
12:30 PM–1:30 PM  Point-of-Care Ultrasound
East
4:00 PM–5:30 PM  Obstetric Ultrasound
Trianon

Monday, March 21, 2016
10:15 AM–11:00 AM  High-Frequency Clinical and Preclinical Imaging
Petite Trianon

Committee Meeting Schedule

Wednesday, March 16, 2016
3:00 PM–6:00 PM  Output Standards Subcommittee
East
7:00 PM–9:00 PM  International Electrotechnical Commission Subcommittee
East

Thursday, March 17, 2016
8:00 AM–2:00 PM  Bioeffects Committee
East
12:30 PM–3:30 PM  Executive Committee
Hilton Board Room
2:00 PM–6:00 PM  Technical Standards Committee
East

Friday, March 18, 2016
1:00 PM–2:00 PM  Curriculum Task Force Committee
Holland
1:30 PM–2:30 PM  Journal of Ultrasound in Medicine
Deputy and Subspecialty Editors
East

Saturday, March 19, 2016
7:00 AM–8:00 AM  Journal of Ultrasound in Medicine
Editorial Board
Mercury
9:00 AM–10:00 AM  Membership Committee
East
12:30 PM–1:30 PM  Clinical Standards Committee
Harlem
12:30 PM–1:30 PM  Presidential Advisory Committee
Holland
1:30 PM–3:30 PM  Ultrasound Practice Accreditation Council
East

Sunday, March 20, 2016
7:00 AM–8:00 AM  Council on Communities
East
8:15 AM–10:15 AM  Continuing Medical Education Committee
Harlem
12:30 PM–3:30 PM  Executive Committee

7:00 PM–11:00 PM  Leadership Dinner
Grand Ballroom West

Monday, March 21, 2016
8:15 AM–11:00 AM  Board of Governors
Mercury
The next generation of sterile barriers has arrived.

CIVCO’s completely new Intuit Series of transducer covers provides an intuitive, easy-to-use sterile barrier to drive standardized workflow and minimize costs resulting from Healthcare-Associated Infections.

Each cover offers:

- Premium CIV-Flex™ material
- Simplified application technique
- Three-dimensional “box end” for distortion-free scanning

Fighting infection while maintaining the highest quality standards has never been so intuitive.

Visit CIVCO at AIUM Booth #2205

To Learn More: Visit www.CIVCO.com/AIUM

Enhanced Protection. Trusted Results.
SPECIAL INTEREST TRACKS

Convention registrants can attend sessions from all interest tracks, unless the session is followed by an asterisk which indicates a separate registration fee is required. Orange strike through indicates sessions that are sold out.

Basic Science and Instrumentation
- Estimation of In Situ Acoustic Output Levels ____________ Friday
- Compressional Sound Speed Imaging__________________ Saturday
- Design Updates for Nontraditional
  - Applications of Point-of-Care Ultrasound__________ Saturday
- Community Meeting_______________________________ Sunday
- Synthetic Focus Imaging Techniques________________ Sunday
- Cleaning Up Ultrasound Images_____________________ Monday

Cardiovascular Ultrasound
- Acute Cardiac Ultrasound Cases_____________________ Friday
- Advanced Carotid Ultrasound________________________ Friday
- Carotid Ultrasound: The Good, the Bad, and the Ugly__ Friday
- How to Approach the Transplant Recipient____________ Friday
- Vascular Jeopardy_______________________________ Friday
- Community Meeting______________________________ Saturday
- Hands-on Carotid and Transcranial Doppler Ultrasound* Saturday
- Hands-on Evaluation of Chronic Venous Insufficiency* Saturday
- Just Images: Uncommon Chronic Vascular Pathology__ Saturday
- Just Images: Vascular Emergencies__________________ Saturday
- Renal Doppler Ultrasound: How Far Can You Go?_____ Saturday
- Imaging Pitfalls and Great Calls___________________ Sunday
- Noninvasive Testing for Peripheral Arterial Disease:
  - Case-Based Presentations________________________ Sunday
- Peripheral Arterial Disease: Consult Through
  - Intervention and Follow-up Surveillance___________ Sunday
- Spectrum of Care and Evaluation of Chronic
  - Venous Insufficiency____________________________ Sunday
- Transcranial Doppler Application and
  - Interpretation in Brain Injury and Disease_________ Sunday
- Just Images: Abdominal Aorta______________________ Monday
- Just Images: Cardiovascular Ultrasound_____________ Monday

Contrast-Enhanced Ultrasound
- Clinical Applications of Contrast-Enhanced Ultrasound:
  - Case-Based Approach____________________________ Saturday
- Clinical Applications of Ultrasound Contrast: Part 1__ Saturday
- Clinical Applications of Ultrasound Contrast: Part 2__ Saturday
- Community Meeting______________________________ Saturday
- Just Images: Contrast-Enhanced Ultrasound_________ Sunday

Elastography
- Elastography Hands-On*___________________________ Friday
- Imaging Application and Uses: Part 1________________ Friday
- Research in Elastography__________________________ Friday
- Interest Group Meeting___________________________ Saturday
- Just Images: Breast Elastography____________________ Saturday
- Musculoskeletal Elastography_______________________ Saturday
- Elasticographic Images____________________________ Sunday
- Imaging Application and Uses: Part 2________________ Sunday

Fetal Echocardiography
- Common Congenital Heart Anomalies: Prenatal,
  - Postnatal, and Pathologic Correlations____________ Friday
- Hands-on Fetal Cardiac Sonography: Basic to Advanced* Friday
- Prognosis and Follow-up After Early Diagnosis
  - of Fetal Cardiac Abnormalities____________________ Friday
- What Went Wrong? All You Need to Know About Fetal
  - Cardiac Embryology, Anatomy, and Pathology________ Friday
- Abnormalities of the Fetal Venous System____________ Saturday
- Can Fetal Echocardiography Predict the Future?
  - Progression of Pathology Through Gestation________ Saturday
- Normal Fetal Heart Examination: Chambers,
  - Arteries, and Veins______________________________ Saturday
- Community Meeting______________________________ Sunday
- Complications of Monochorionicity_________________ Sunday
- Interplay of Genetics and the Fetal Heart:
  - Different Problems, Different Perspectives_________ Sunday
- Tricks and Physics: How to Improve Your Imaging of
  - the Fetal Heart______________________________ Sunday
- Assessment of the Fetus at Risk for Cardiac Decompensation:
  - When to Worry, What to do About It______________ Monday
- Just Images: Fetal Echocardiography_______________ Monday
- Wrong Diagnosis: Learning From Our Mistakes_______ Monday
SPECIAL INTEREST TRACKS

General and Abdominal Ultrasound
- Breast Imaging
  - Friday
- Evaluation and Follow-up of the Chronic Kidney Disease Patient With a Renal Mass
  - Friday
- Ultrasound Evaluation of the Abdominal Wall and Associated Structures
  - Friday
- Community Meeting
  - Saturday
- Just Images: Uncommon Vascular Pathology
  - Saturday
- Renal Doppler Ultrasound: How Far Can You Go?
  - Saturday
- Ultrasound After 5 PM
  - Saturday
- Ultrasound of the Patient With a Thyroid Nodule: Basic Anatomy and Preoperative and Postoperative Evaluation
  - Saturday
- Journal Club: Recently Published Articles That Have Shaped the Practice of General and Abdominopelvic Ultrasound
  - Saturday

Gynecologic Ultrasound
- Deep Endometriosis
  - Friday
- Just Images: Urogynecology and Pelvic Floor
  - Friday
- Novel Gynecologic and Early-Pregnancy Ultrasound-Guided Interventions
  - Friday
- Abnormal Uterine Bleeding
  - Saturday
- Acute Care in Gynecology
  - Saturday
- Community Meeting
  - Saturday
- Film Panel: Unknown Cases
  - Saturday

CASE-OF-THE-DAY CHALLENGES

Americas Hall II

On behalf of the Planning Committee, we would like to thank the communities and interest groups for providing the cases for the Case-of-the-Day Challenges.

The Case-of-the-Day Challenges will be located on the 2nd floor of the Exhibit Hall; Americas Hall II.

The cases will be available beginning on Friday, March 18, through Monday, March 21, 2016.

The cases will be displayed on designated computers where you will be able to choose your challenge according to specialty. When you submit your answer, you will find out immediately whether your diagnosis is correct. Your results will be purged immediately, so only you will know whether your diagnosis is correct.

Most importantly, enjoy the education these case of the day challenges provide.

Thank you to Parker Laboratories, Inc. for their generous support of the Case-of-the-Day Challenges.

JOIN US!

Get your AIUM Annual Convention started off on the right foot by joining your colleagues on a hosted 3- or 6-mile run! These runs, hosted and led by local runners, will provide you with a little exercise and a unique way to see part of the city while you network with colleagues.

When: March 18 and 19
When: 6:00 AM
Start: New York Hilton Midtown lobby

Visit the registration area or the AIUM booth if you have any questions.
CONTINUING MEDICAL EDUCATION (CME) CREDIT INFORMATION

Activity Description
The 2016 AIUM Annual Convention and Preconvention Program is the most comprehensive, cutting-edge meeting for the entire medical ultrasound community. Our unique multidisciplinary program provides a collaborative environment for all specialties and disciplines, from beginner to advanced.

Accreditation Statement
The American Institute of Ultrasound in Medicine (AIUM) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide CME activities for physicians.

Designation Statement for the 2016 Preconvention Program
The AIUM designates this live activity for a maximum of up to 7.5 AMA PRA Category 1 Credits™. Physicians should claim only the credits commensurate with the extent of their participation in the activity.

Designation Statement for the 2016 Convention
The AIUM designates this live activity for a maximum of up to 29.0 AMA PRA Category 1 Credits™. Physicians should claim only the credits commensurate with the extent of their participation in the activity.

Credits for Sonographers
Sonographers participating in AIUM educational activities may earn credits toward maintaining their professional certification from the following organizations:

American Registry for Diagnostic Medical Sonography (ARDMS)
The ARDMS accepts AMA PRA Category 1 Credits™.

American Registry of Radiologic Technologists (ARRT)
The AIUM is a Recognized Continuing Education Evaluation Mechanism (RCEEM) for the ARRT. These educational activities are approved by the AIUM for 7.5 ARRT Category A Credits for the 2016 AIUM Preconvention Program and 29.0 ARRT Category A credits for the 2016 Convention.

The Ultrasound Guided Regional Anesthesia (UGRA) Credits
The Ultrasound Guided Regional Anesthesia (UGRA) Education and Clinical Training Portfolio is a joint initiative from ASA and the American Society of Regional Anesthesia and Pain Medicine (ASRA) designed for anesthesiologists who wish to distinguish themselves in the field and provide evidence of training and experience to share with employers. The program guides participants through specific criteria to demonstrate knowledge and achievement in UGRA procedures. The program requires participants to progressively build knowledge through participation in specific CME activities and validate experience via case log documentation. The completed portfolio contains data that defines all UGRA achievements, the criteria required to meet the achievement and evidence of how those criteria were met.

Courses are indicated with a UGRA.

SAMs
The ABR defines “self-assessment CME” as interactive learning opportunities that use self-assessment tools to help learners reflect on their practice and identify their individual needs. The following sessions qualify for self-assessment CME toward the purpose of fulfilling requirements in the American Board of Radiology Maintenance of Certification Program:

• Breast Lumps in Teenagers: The “Black Hole” of the Pediatric Radiology (March 19)
• Ultrasound Guided Intervention–State of the Art Techniques in Biopsy, Managing Coagulopathy, and Avoiding Complications (March 19)
• How to be an Ultrasound Hipster (March 20)
• Pediatric Oncologic Ultrasound: Liver, Renal, Retroperitoneal Tumors (March 20)
• Just Images: Interventional/Intraoperative (March 21)

Courses are indicated with a SAMs.
CONTINUING MEDICAL EDUCATION (CME) CREDIT INFORMATION

Course Objectives
On completion of this learning activity, participants should be able to:
• Demonstrate updated knowledge in basic science and instrumentation, cardiovascular ultrasound, contrast-enhanced ultrasound, dermatologic ultrasound, fetal echocardiography, general and abdominal ultrasound, gynecologic ultrasound, high-frequency clinical and preclinical imaging, interventional-intraoperative ultrasound, musculoskeletal ultrasound, neurosonology, obstetric ultrasound, pediatric ultrasound, point-of-care ultrasound, sonography, ultrasound in resource limited-areas, and therapeutic ultrasound.
• Discuss state-of-the-art ultrasound research.
• Practice updated ultrasound skills for more effective diagnosis.
• Apply updated knowledge and clinical skills in improving patient care.

Activity Designed to Change
Competence and performance.

Accreditation Council for Graduate Medical Education (ACGME) Competencies
These courses are designed to meet 1 or more of the following ACGME competencies: interpersonal and communication skills, medical knowledge, patient care and procedural skills, practice-based learning and improvement, professionalism, and systems-based learning.

Disclosure Policy
As a provider accredited by the ACCME, the AIUM must ensure balance, independence, objectivity, and scientific rigor in its educational activities. Course directors, the planning committee, faculty, and all others who are in a position to control the content of this educational activity are required to disclose all relevant financial relationships with any commercial interest related to the subject matter of the educational activity so that the AIUM may identify and resolve any conflicts of interest prior to the activity.

Disclosures for This Activity
The faculty, committee members, community officers, AIUM leadership, and AIUM staff involved in planning this CME activity have completed a Disclosure of Financial Relationship. Individuals with disclosures are listed in the Official Proceedings. Disclosures are available for review on request.

Documenting CME Credits
The AIUM provides CME certificates to those who have participated in an AIUM educational activity. The AIUM does not submit credits to regulating bodies or certifying organizations on behalf of the participant. It is the participant’s responsibility to submit proof of credits on his or her own behalf.

Disclaimer
The information presented in this activity represents the opinion of the faculty and is not necessarily the official position of the AIUM.
EDUCATIONAL OPPORTUNITIES

Target Audience
This activity is designed to meet the needs of ultrasound professionals from various medical disciplines and specialty areas who perform and interpret ultrasound examinations.

Preconvention Program
Attend courses providing in-depth coverage of ultrasound issues. Earn up to 7.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
*Separate registration is required.

Just Images Sessions
View and discuss unique cases with the physicians who made the diagnoses.

Comprehensive Refresher Sessions
Comprehensive Refresher Sessions are venues for luminary speakers to present an overall review of a topic.

Special Interest Sessions
Choose from concurrent courses developed by community and interest group officers and presented by distinguished ultrasound professionals.

Hands-on Special Interest Sessions
Participate in sessions on musculoskeletal ultrasound, ultrasound-guided nerve blocks, carotid and transcranial Doppler ultrasound, elastography, how to do the biopsy, and pediatrics. The cost for these sessions is $50 each. Space is limited.

Film Panel Sessions
A group of expert panelists will evaluate new and challenging cases in ultrasound.

Scientific Sessions
Learn about the latest research in ultrasound. Topics include but are not limited to:

- Basic Science
- Breast Ultrasound
- Cardiovascular Ultrasound
- Clinical Tissue Characterization
- Contrast-Enhanced Ultrasound
- Elastography
- Emergency Ultrasound
- General and Abdominal Ultrasound
- Genitourinary Ultrasound
- Gynecologic Ultrasound
- High-Frequency Clinical and Preclinical Imaging
- Interventional-Intraoperative Ultrasound
- Musculoskeletal Ultrasound
- Obstetric Ultrasound
- Pediatric Ultrasound
- Point-of-Care Ultrasound
- Sonography Practice
- Therapeutic Ultrasound
E-Posters (Americas Hall II)
E-posters allow authors to present their research using a monitor and computer.

Accreditation Tutorial (Beekman)
Saturday March 19, 2016  4:00 pm–5:30 pm
Learn how easy it is to complete the ultrasound practice accreditation process and get answers to the most commonly asked questions regarding accreditation. Learn about AIUM standards for examination protocols, personnel, quality assurance, record keeping, safety, and physical facilities. This workshop incorporates a hands-on session that shows the individual how to fill out the online application, upload images, and apply for accreditation.

Case-of-the-Day Challenges (Americas Hall II)
Test your abilities each day by diagnosing unique case studies.

Community and Interest Group Meetings
Meet with other ultrasound professionals who share your interests, plan future AIUM educational programs, and discuss the issues in your specialty. (See page 5 for schedule)
TO PRINT YOUR CME CERTIFICATE FOR
THE CONVENTION/PRECONVENTION
PROGRAM:

Everything you need to register and print your AIUM Convention CME credits is accessible through “My Account” on the AIUM website.

• Go to www.aium.org and click on the “My Account” link on the upper right side of the page.
• If you have already set up an account, just log in with your registered e-mail address and password.
• If you have not yet set up your account, click on “Activate your account here.”

You will need your AIUM membership/ID number, which is located on your name badge. (If you registered on-site or do not know your AIUM membership/ID number, please e-mail ddelanko@aium.org.)

Once into your account:
• Go to the lower right area titled “My CME Tracker.” Click on “All CMEs Earned at Conventions and/or Postgraduate Courses.”
• Once there, follow the instructions to enter the number of CME credits you earned.
• Do not submit until you have entered all of your CME credits for the entire event.

Notes
If you register on-site, please wait at least 24 hours before claiming your CME credits. This will give the AIUM systems time to synchronize.

Enter your credits through a desktop computer. Mobile devices are not supported. You will be able to enter credits only for the days for which you are registered. The maximum number of credits for each day is:

Preconvention, Thursday, March 17, 2016, 7.5 credits
Convention, Friday, March 18, 2016, 6.5 credits
Convention, Saturday, March 19, 2016, 8 credits
Convention, Sunday, March 20, 2016, 8 credits
Convention, Monday, March 21, 2016, 6.5 credits

www.aium.org ● 2016 AIUM Convention Program ● New York City
Thursday, March 17, 2016

7:00 AM Team Registration and Check In Opens

8:00 AM–11:00 AM Round #1—Hands-on scanning/Q&A stations

11:00 AM–1:00 PM Lunch

1:00 PM–3:00 PM Round #2—This round will include case-based scanning. Teams not advancing to this round will participate in additional training.

3:00 PM–4:00 PM Round #3—Final scan off

4:00 PM–5:00 PM Award Presentation

SonoSlam pits teams of medical school students from across the country against each other to see who rocks the transducer best. The winning team receives national glory and the envy of the other 140 U.S. medical schools.

Hosted by the AIUM and the National Ultrasound Interest Group (NUSIG), SonoSlam is designed to challenge, teach, and build ultrasound skills. The winning team will be presented with the Peter Arger Cup!
Thursday, March 17, 2016

Preconvention Program
Separate Registration Required

Day at a Glance
6:30 AM–5:00 PM  Registration Open
7:00 AM–7:30 AM  Preconvention Breakfast
7:30 AM–5:00 PM  Fetal imaging in Early Gestation: A Comprehensive Review
7:30 AM–11:30 AM Comprehensive Review of Musculoskeletal Ultrasound of Joints: From Basic to Advanced Imaging
                                  Integrating, Evaluating, and Encouraging Ultrasound in Medical Education
                                  Pelvic Floor
8:00 AM–2:00 PM  Bioeffects Committee Meeting
12:30 PM–3:30 PM  Finance and Executive Committee Meeting
1:00 PM–5:00 PM  Multiple Gestations
                                  Pediatric Applications of Doppler Ultrasound
2:00 PM–6:00 PM  Technical Standards Committee Meeting
5:30 PM–7:00 PM  Presidential Reception for New Members and Leadership
                                  (by invitation only)
5:15 PM–6:00 PM  Ultrasound in Medical Education Special Interest Group meeting
PRECONVENTION MARCH 17TH

7:00 AM–7:30 AM
Preconvention Breakfast

7:30 AM–5:00 PM
Full-Day Course

**Fetal Imaging in Early Gestation: A Comprehensive Review**
Earn up to 7.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Grand Ballroom East*
Moderators: Alfred Abuhamad, MD, Isabelle Wilkins, MD
Speakers: Alfred Abuhamad, MD, Bryann Bromley, MD, Mary Norton, MD, Elena Sinkovskaya, MD, PhD, RDMS, RDCS, Paul Speer, MD, Isabelle Wilkins, MD

This course will review the fetal anatomic systems that should be evaluated in the first trimester. Speakers will discuss what they consider the most important diagnoses within these systems from a clinical, medicolegal, or ultrasound perspective.

7:30 AM–11:30 AM
Morning Half-Day Courses

**UGRA Comprehensive Review of Musculoskeletal Ultrasound of Joints: From Basic to Advanced Imaging**
Earn up to 3.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Trianon*
Moderators: Joseph Craig, MD, ChB, Humberto Rosas, MD
Speakers: Natalie Bureau, MD, FRCPC, MSc, Joseph Craig, MD, ChB, Girish Gandikota, MBBS, FRCS, FRCR, RMSK, Humberto Rosas, MD, Courtney Scher, DO, Colin Strickland, MD

On completion of this course, participants should gain a basic to advanced understanding of when and how to perform musculoskeletal ultrasound to evaluate the shoulder, elbow, wrist, hip, knee, ankle, and foot.

8:00 AM–2:00 PM
Bioeffects Committee Meeting
*East*

12:30 PM–3:30 PM
Finance and Executive Committee Meeting
*Hilton Board Room*

**Integrating, Evaluating, and Encouraging Ultrasound in Medical Education**
Earn up to 3.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Nassau*
Moderators: David Bahner, MD, RDMS, John Pellerito, MD, Don DiSalvo, MD

This preconvention workshop will feature faculty, students, and panel discussions on how to integrate ultrasound into medical school programs and curriculum. Key topics include: competency, training, and getting students to become experts.

**Pelvic Floor**
Earn up to 3.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Grand Ballroom West*
Moderator: Phyllis Glanc, MD
Speakers: Hans Peter Dietz, MD, PhD, FRANZCOG, DDU CU, Ilan Trisch-Timor, MD

The assessment of female urinary incontinence and pelvic organ prolapse has to date been limited to urodynamic testing and the clinical evaluation of surface anatomy. It is becoming increasingly clear that such an approach is insufficient. This is mainly due to the realization that pelvic floor trauma in labor is common, generally overlooked, and a major factor in the causation of pelvic organ prolapse. Modern imaging methods such as magnetic resonance imaging and 3-dimensional (3D) ultrasound have enabled us to diagnose such abnormalities reliably and accurately, most commonly in the form of an avulsion of the puborectalis muscle off its insertion on the os pubis. However, ultrasound has a number of other advantages in the assessment of pelvic organ prolapse, most notably in the differential diagnosis of posterior compartment prolapse, which can be due to at least 5 different conditions. Imaging also has great utility in the assessment of modern sling and mesh implants and in women with symptoms of obstructed defecation. Most recently, translabial 3D/4D ultrasound has become an alternative to endoanal ultrasound for the diagnosis of obstetric anal sphincter tears.
1:00 PM–5:00 PM

Afternoon Half-Day Courses

Multiple Gestations
Earn up to 3.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Grand Ballroom West
Moderators: Anthony Johnson, DO, Lynn Simpson, MD
Speakers: Christina Han, MD, Sonia Hassan, MD, Anthony Johnson, DO, Jena Miller, MD, Lynn Simpson, MD
This course will review the important aspects to evaluate in multiple gestations; the importance of chorionicity in the management of multiple gestations will be reviewed. Speakers will discuss what they consider the most important twin diagnoses and systems from a clinical, medicolegal, or ultrasound perspective.

Pediatric Applications of Doppler Ultrasound
Earn up to 3.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Trianon
Moderator: Leann Linam, MD
Faculty: Susan Back, MD, Leah Braswell, MD, Rob Goodman, MD, Leann Linam, MD, Mary Beth McCarrville, MD, Karl Muchantel, MD
The objective of this course is to teach the basics of Doppler ultrasound and its applications in the pediatric population. The course will cover Doppler physics, transcranial Doppler ultrasound, neonatal head Doppler ultrasound, renal Doppler ultrasound (native and transplant), liver Doppler ultrasound (native and transplant), and Doppler ultrasound of vascular malformations.

2:00 PM–6:00 PM

Technical Standards Committee Meeting
East

5:30 PM–7:00 PM

Presidential Reception for New Members and Leadership
Urban Kitchen (Lobby Level)
(by invitation only)

Day at a Glance

6:30 AM–4:30 PM   Convention Registration Open
8:00 AM–9:30 AM   Special Interest Sessions
9:45 AM–11:30 AM  Opening Plenary Session, Awards Session, and AIUM Business Meeting
11:30 AM–1:30 PM  Grand Opening Luncheon in the Exhibit Hall (Americas Hall I)
11:30 AM–4:00 PM  Exhibit Hall Open
11:30 AM–4:30 PM  E-Posters Open for Viewing
1:00 PM–2:00 PM   Curriculum Task Force Meeting
1:30 PM–2:30 PM   Journal of Ultrasound in Medicine Deputy and Subspecialty Editors Meeting
1:00 PM–3:00 PM   Special Interest Sessions
3:00 PM–3:30 PM   Break in Exhibit Hall
3:30 PM–5:30 PM   Special Interest Sessions
                                 Hands-on Special Interest Session
5:30 PM–6:00 PM   Therapeutic Ultrasound Community Meeting
FRIDAY MARCH 18TH

8:00 AM–9:30 AM

Special Interest Sessions

Acute Cardiac Ultrasound Cases
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Trianon
Moderator: Anthony Dean, MD
Speakers: Michael Malin, MD, David Riley, MD, Turan Saul, MD
By the end of the session, participants will be able to: discuss the role of acute cardiac ultrasound in differentiating causes of shock, chest pain, shortness of breath, and other acute diseases; detail circumstances that make acute cardiac imaging more challenging and alternative techniques to optimize imaging; and discuss common and uncommon pathologies encountered in the acute care setting.

Controversies in Noninvasive Prenatal Testing
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Mercury
Moderator: Jacques Abramowicz, MD
On completion of this session, the participant should demonstrate an understanding of noninvasive prenatal testing (NIPT) technology and appropriate indications for NIPT use in clinical practice.

Deep Endometriosis
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Grand Ballroom West
Moderator: James Shwayder, MD, JD
The objectives of this session are to demonstrate the sonographic appearance of pelvic endometriosis involving lesions in the bowel wall, pouch of Douglas, bladder wall, rectovaginal septum, etc; and to demonstrate the benefit of ultrasound over other forms of imaging for detecting endometriosis in patients presenting with pelvic pain. Even when the uterus and ovaries are normal, the patient may still have extensive and symptomatic endometriosis, which is detectable accurately sonographically.

8:00 AM–8:30 AM
Endometriosis: An Overview
Beryl Benacerraf, MD

8:30 AM–9:00 AM
Correlation of Ultrasonographic Findings and Laparoscopic Findings With Advanced-Stage Endometriosis
James Shwayder, MD, JD

9:00 AM–9:30 AM
New Techniques in the Diagnosis of Deep Infiltrating Endometriosis
Stefano Guerriero, MD

UGRA Hands-on Shoulder Ultrasound (Sold out)
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Rendezvous Trianon
Moderators: Mary Chiavaras, MD, PhD, FRCP, Corrie Yablon, MD
Faculty: Nathalie Bureau, MD, FRCPC, MSc, Mary Chiavaras, MD, PhD, FRCP, Cristy Gustas, MD, Jon Jacobson, MD, Nicholas Nacey, MD, Daniel Nissman, MD, MPH, MSEE, Jennifer Pierce, RDMS, Courtney Scher, DO, Colin Strickland, MD, Corrie Yablon, MD
At the completion of this session, participants will have gained hands-on experience in performing a systematic ultrasound examination of the shoulder.

How to Approach the Transplant Recipient
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Beekman
Moderator: Edward Bluth, MD

8:00 AM–8:30 AM
Ultrasound Evaluation of the Renal Transplant Recipient
Sheila Sheth, MD
8:30 AM–9:00 AM
Ultrasound Evaluation of the Liver and Pancreas Transplant Recipients
Edward Bluth, MD

9:00 AM–9:30 AM
Liver
Jason Pietryga, MD

Research in Elastography
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Sutton Center
Moderator: Richard Barr, MD, PhD
Learn about the latest research in elastography. This session will update the learner on the latest research and developments regarding compression strain and shear wave elastography.

8:00 AM–8:30 AM
Basic Science
Mark Palmeri, MD, PhD

8:30 AM–9:00 AM
Liver
Giovanna Ferraioli, MD

9:00 AM–9:30 AM
Breast
Richard Barr, MD, PhD

Ultrasound Evaluation of the Abdominal Wall and Associated Structures
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Sutton South
Moderator: Nirvi Dahiya, MD
The objective of this session is to describe the normal and abnormal sonoanatomic appearances of the abdominal wall and to focus on describing palpable abdominal masses, defects, hernias, and soft tissue infections.

8:00 AM–8:20 AM
Abdominal Wall: Lumps and Bumps in the Wall
Nirvi Dahiya, MD

8:20 AM–8:40 AM
Hole in the Abdominal Wall: Overview of Hernias
Cynthia Rapp, RDMS

8:40 AM–9:00 AM
Soft Tissue Infections, Including Post–Hernia Repair Evaluation
Michael Williamson, MD

9:00 AM–9:20 AM
Under the Wall: Peritoneum, Omentum, and Other Stuff
Ravi Kadasne, MD

What Went Wrong? All You Need to Know About Fetal Cardiac Embryology, Anatomy, and Pathology
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Sutton North
Moderator: Anita Moon Grady, MD
This session will combine the knowledge of the clinician sonographer and the anatomic pathologist in a comprehensive review of the embryology, anatomy, physiology, and ultrasound appearance of ventricular septal defects, looping and laterality disorders, and selected conotruncal lesions. Included will be discussions of counseling and implications of ultrasound findings for perinatal management.

8:00 AM–8:15 AM
All You Need to Know About Ventricular Septal Defects: Embryology, Anatomy, and Echocardiography
Norman Silverman, MD, MSc

8:15 AM–8:30 AM
All You Need to Know About Ventricular Septal Defects: Pathology
Norman Silverman, MD, MSc

8:30 AM–8:45 AM
All You Need to Know About Situs and Looping Disorders: Embryology, Anatomy, and Echocardiography
Helena Gardiner, MD, PhD, FRCP, FRCPCH

8:45 AM–9:00 AM
All You Need to Know About Situs and Looping Disorders: Pathology
Norman Silverman, MD, MSc

9:00 AM–9:15 AM
All You Need to Know About Double-Outlet Right Ventricles Versus Tetralogy of Fallot and Transposition of the Great Arteries: Embryology, Anatomy, and Echocardiography
Lisa Hornberger, MD

9:15 AM–9:30 AM
All You Need to Know About Double-Outlet Right Ventricles Versus Tetralogy of Fallot and Transposition of the Great Arteries: Pathology
Norman Silverman, MD, MSc
FRIDAY MARCH 18TH

9:45 AM–11:30 AM
Opening Plenary Session, Awards Session, and AIUM Business Meeting

Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or AART Category A Credit.

Grand Ballroom East

Welcome
Beryl Benacerraf, MD

William J. Fry Memorial Lecture Award
Tips and Tricks of Successful Ultrasound Studies
Dirk Timmerman, MD, PhD, FRCOG
This lecture will cover lessons learned from 20 years of clinical research in gynecological ultrasound ranging from assessment of ovarian tumors and uterine pathology to complications in early pregnancy.

Plenary Session
Global Maternal Health: Ultrasound and Access to Care
Alfred Abuhamad, MD

Joseph H. Holmes Pioneer Award
Clinical Awardee – Alfred Abuhamad, MD
Basic Science Awardee – Michael Kolios, PhD

Peter H. Arger, MD, Excellence in Medical Student Education Award
Awardee – J. Christian Fox, MD, RDMS

Distinguished Sonographer Award
Awardee – Daniel A. Merton, BS, RDMS

Honorary Fellow Award
Aris Papageorghiou, MD, FRCOG
Paul Sidhu, BSc, MBBS, MRCP, FRCP

Memorial Recognition
Carol Mittelstaedt, MD
Anna Lev-Toaff, MD

Journal of Ultrasound in Medicine Deputy and Subspecialty Editors Meeting
East
1:00 PM–3:00 PM
Special Interest Sessions

Breast Imaging
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Sutton South**

**Moderator:** Susan Ackerman, MD

At the conclusion of this session, participants should be able to: (1) describe emerging breast imaging technologies; (2) discuss the role of screening; (3) analyze case presentations during an unknown/challenging case session and describe findings; and (4) evaluate a multidisciplinary approach to breast care.

- **1:00 PM–1:10 PM**
  - **Introduction**

- **1:10 PM–1:30 PM**
  - **Tomosynthesis**
    - Nitin Tanna, MD

- **1:30 PM–1:50 PM**
  - **Just Images**
    - Susan Ackerman, MD

- **1:50 PM–2:10 PM**
  - **Screening Breast Ultrasound**
    - Stamatia Destounis, MD

- **2:10 PM–2:30 PM**
  - **Multidisciplinary Approach**
    - Madeline Lewis, MD

- **2:30 PM–2:50 PM**
  - **Just Images**
    - Abid Irshad, MBBS

- **2:50 PM–3:00 PM**
  - **Question and Answer**

---

**Elastography: Hands On**

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Rendezvous Trianon**

**Moderator:** Richard Barr, MD, PhD

**Faculty:** Giovanna Ferraioli, MD, Carlo Filice, MD

Provide the ultrasound imaging community the opportunity to scan with compression strain and shear wave elastography on a variety of imaging systems. This session also allows users to get expert advice as well.

---

**Estimation of In Situ Acoustic Output Levels**

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Concourse A**

**Moderators:** Kathy Nightingale, PhD, Thomas Szabo, PhD

The objective of this session is to provide a review of state-of-the-art approaches to characterizing acoustic output in situ. These methods are evolving, and many are simulation based. The session will discuss the problem with current derating approaches, review challenges with previously developed methods for addressing the problem, and present state-of-the-art approaches and software tools that have been developed for use by the general research community.

- **1:00 PM–1:10 PM**
  - **Introduction**

- **1:10 PM–1:30 PM**
  - **Estimation of In Situ Acoustic Output: History and Future Directions**
    - Thomas Szabo, PhD

- **1:30 PM–1:50 PM**
  - **Quantification of Nonlinear Fields: Challenges of Direct Measurement Versus Linear Extrapolation**
    - Sam Howard, PhD

- **1:50 PM–2:10 PM**
  - **Estimation of In Situ Medical Ultrasound Fields Based on Measurements in Water and Nonlinear Simulations**
    - Michael Bailey, PhD

- **2:10 PM–2:30 PM**
  - **Measurement and Modeling of Nonlinear Beam Distortion in Heterogeneous Media Using the Open Source K-Wave Toolbox**
    - Elly Martin, PhD

- **2:30 PM–2:50 PM**
  - **Simulations of Nonlinear Ultrasound Propagation in the Human Body**
    - Gianmarco Pinton, PhD

- **2:50 PM–3:00 PM**
  - **Question and Answer**
FRIDAY MARCH 18TH

Institutional Point-of-Care Ultrasound
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Trianon
Moderator: Philip Levy, MD

After this session, participants should be able to discuss how to establish relationships within a hospital institution to foster the growth of point-of-care ultrasound. The session will focus on establishing transparency, enhancement of interdepartmental oversight, and general work flow concepts and training that use middleware software and technology. The evolution of point-of-care ultrasound is changing the landscape of ultrasound application and greatly expanding the clinical specialties using ultrasound. This session will discuss the range of penetration ultrasound can have in a hospital institution and the specific challenges posed and solutions to the increasing demands for point-of-care ultrasound.

1:00 PM–1:30 PM
The Institutional Migration of Point-of-Care Ultrasound From a Diagnostic Modality to a Clinical Evaluation Instrument
Harvey Nisenbaum, MD

1:30 PM–2:00 PM
Developing a Successful Business Plan to Grow Point-of-Care Ultrasound
Gerardo Chiricolo, MD

2:00 PM–2:30 PM
Evolution of Work Flow From VHS to the Cloud: Middle Software Technology
Rajesh Geria, MD

2:30 PM–3:00 PM
Creating Transparency Within the Institution: Research and Collaboration
Resa Lewiss, MD

Novel Gynecologic and Early Pregnancy Ultrasound-Guided Procedures
 Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Grand Ballroom West
Moderator: Joaquin Santolaya, MD, PhD

The session will provide a comprehensive overview of the management and treatment of pathologies occurring in the female pelvis and pregnant patients, including up-and-coming cell-based therapy.

1:00 PM–1:30 PM
Making Sense of Coagulation Parameters: Treating the Lab Versus the Patient
Corinne Deurdulian, MD

1:30 PM–2:00 PM
Novel Ultrasound-Guided Management of Uterine Arteriovenous Malformations, Adnexal Masses, and Pelvic Abscesses
Nami Azar, MD

2:00 PM–2:30 PM
Sonographic Evaluation of the Normal Gestational Sac Compartments and the Potential Ultrasound-Guided Cell-Based Therapies Before 10 Weeks’ Gestation
Joaquin Santolaya, MD, PhD

2:30 PM–3:00 PM
Diagnostic and Treatment Challenges of Cornual and Scar Pregnancies
Ilan Timor-Tritsch, MD

Obstetric Film Panel: Interesting Prenatal Cases With Neonatal Follow-up
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Grand Ballroom East
Moderator: Janice Byrne, MD
Faculty: Janice Byrne, MD, Timothy Canavan, MD, Joan Mastrobattista, MD, Mary O’Day, MD, Thomas Shipp, MD

The objectives of this session are to: (1) evaluate new and challenging obstetric cases in ultrasound; (2) elicit an audience response for diagnosis; (3) discuss differential diagnosis and management of challenging cases; and (4) describe the use of magnetic resonance imaging as an adjunct to ultrasound in managing difficult fetal cases.

Prognosis and Follow-up After Early Diagnosis of Fetal Cardiac Abnormalities
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Sutton North
Moderator: Liat Gindes, MD

This session is anticipated to educate physicians and those who counsel patients about what indications to refer for early cardiac assessment and how to appropriately counsel and manage patients with both normal and abnormal results. Cardiologists with special expertise in early fetal echocardiography will provide perspective, balanced by obstetric imaging–focused experts, to provide a balanced view of the topics.
1:00 PM–1:40 PM
Comprehensive First-Trimester Cardiac Assessment
Reem Abu Rustum, MD

1:40 pm–2:20 pm
Potential and Pitfalls of Early Cardiac Assessment
Lisa Hornberger, MD

2:20 PM–2:40 PM
Prediction of Prognosis: Limitations of Early Diagnosis and Problems That May Be Associated With Diagnoses in the First Trimester
Anita Moon-Grady, MD

2:40 pm–3:00 pm
Prediction of Prognosis: Limitations of Early Diagnosis and Problems That May Be Associated With Diagnoses in the First Trimester
Lynn Simpson, BSc, MSc, MD

Vascular Jeopardy
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Beekman
Moderator: Leslie Scoutt, MD
Faculty: George Berdejo, BA, RVT, Susan Smith, MD, Sharlene Teefey, MD
This session is designed to invite audience participation from all levels in a game format and to present vascular cases at different levels of difficulty.

3:30 PM–4:30 PM
Special Interest Session

Carotid Ultrasound: The Good, the Bad, and the Ugly
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Beekman
Moderator: George Berdejo, BA, RVT
The objective of this session is to review pitfalls in performance and interpretation as well as waveform analysis and interpretation of complex cases in a film panel format.

3:30 PM–4:00 PM
Carotid Ultrasound: The Good, the Bad, and the Ugly
John Pellerito, MD

4:00 PM–4:30 PM
Cerebrovascular Ultrasound: Pearls and Pitfalls
George Berdejo, BA, RVT

3:30 PM–5:30 PM
Special Interest Sessions

Common Congenital Heart Anomalies: Prenatal, Postnatal, and Pathologic Correlations
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Sutton North
Moderators: Alfred Abuhamad, MD, Karen McCarthy, PhD
This session will cover all aspects of anatomy, ultrasound diagnosis, and postnatal management of the 3 most clinically significant congenital heart defects, including d-transposition of the great arteries, tetralogy of Fallot, and hypoplastic left heart syndrome.

3:30 PM–4:10 PM
Tetralogy of Fallot
Elena Sinkovskaya, MD, PhD, RDMS, RDCS

4:10 PM–4:50 PM
Aortic Coarctation
Mary Donofrio, MD

4:50 PM–5:30 PM
Transposition of the Great Arteries
Jack Rychik, MD

Elastographic Imaging Application and Uses: Part 1
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Sutton Center
Moderator: Richard Barr, MD, PhD
This session will provide an update on state-of-the-art elastography. The emphasis will be on techniques already shown to be of clinical value.

3:30 PM–3:40 PM
Introduction

3:40 PM–4:15 PM
Liver Elastography Update
Giovanna Ferraioli, MD

4:15 PM–4:50 PM
The Opportunities
David Cosgrove, MD

4:50 PM–5:30 PM
Breast Elastography
Richard Barr, MD, PhD
FRIDAY MARCH 18TH

Evaluation and Follow-up of the Chronic Kidney Disease Patient With a Renal Mass
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Sutton South
Moderator: Wui Chong, MD
This session will be multidisciplinary. At the conclusion of the session, participants will be able to discuss the clinical problem of imaging in renal failure, describe the role of conventional grayscale ultrasound (US) in evaluation of renal masses, evaluate the use of contrast-enhanced US for characterization of renal masses, and discuss the performance of US-guided renal biopsies.

3:30 PM–4:00 PM
The Clinical Problem of Imaging in Renal Failure
Emily Chang, MD

4:00 PM–4:30 PM
Conventional Grayscale Ultrasound of Renal Masses
Wui Chong, MD

4:30 PM–5:00 PM
Contrast-Enhanced Ultrasound of Renal Masses
Michelle Robbin, MD, MS

5:00 PM–5:30 PM
Ultrasound-Guided Renal Biopsies
Hanh Nghiem, MD

Hands-on Fetal Cardiac Sonography: Basic and Advanced (Sold out)
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Rendezvous Trianon
Moderators: Tracy Anton, RDMS, Joan Mastrobattista, MD, Julia Solomon, MD, Lami Yeo, MD
Faculty: Tracy Anton, RDMS, Kathleen Bradley, MD, Jude Crino, MD, Helena Gardiner, MD, Liat Gindes, MD, Wesley Lee, MD, Christopher Lindblade, MD, Veronica Martinez, RDMS, Anne-Maude Morency, MD, Lynn Murphy-Kaulbeck, MD, Gary Satou, MD
Guidelines for imaging of the fetal heart have changed in the last several years. In addition to the change in AIUM obstetric imaging guidelines, which now mandate the visualization of both cardiac outflow tracts, there have also been corresponding changes to the requirements for the detailed obstetric exam (76811). It is now required to provide diagnostic images of the systemic venous return, aortic arch, and 3-vessel and trachea view. This session is designed to provide hands-on practical training to help attendees meet these requirements. There will be 16 tables: 8 dedicated to improving technique for acquisition of basic cardiac views and 8 dedicated to more detailed assessment, as well as fetal echocardiographic skills. Attendees will have the opportunity, in conjunction with faculty, to learn these skills on second- and third-trimester pregnant models.

Evaluation of the Cervix in Pregnancy
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Grand Ballroom East
Moderator: Anthony Odibo, MD
On completion of this session, participants should be able to describe the evaluation of the cervix in pregnancy and management of abnormal findings.

3:30 PM–4:05 PM
Short Cervical Length and Intra-Amniotic Infection
Sarah Obican, MD

4:05 PM–4:40 PM
Short Cervix in Twins and Higher-Order Multiples
Ashley Roman, MD, MPH

4:40 PM–5:15 PM
Current Position on Universal Screening for Short Cervix
Anthony Odibo, MD

5:00 PM–5:30 PM
Question and Answer

Just Images: Urogynecology and Pelvic Floor
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Grand Ballroom West
Moderator: Phyllis Glanc, MD
Faculty: Hans Peter Dietz, MD, PhD, FRANZCOG DDU CU
This session will review images of urogynecologic complications with mesh placement and the posterior compartment.

3:30 PM–4:10 PM
The Art of Diagnosing Hernias on Ultrasound
Girish Gandikota, MBBS, FRCS, FRCR, RMSK

Musculoskeletal Ultrasound of Sports Injuries and Hernias
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Regent
Moderator: Nathalie Bureau, MD, FRCP, MSc
On completion of this session, participants will know how to use ultrasound to investigate high hamstring injuries, lower abdominal hernias, and the posttraumatic leg.

3:30 PM–4:10 PM
The Art of Diagnosing Hernias on Ultrasound
Girish Gandikota, MBBS, FRCS, FRCR, RMSK
4:10 PM–4:50 PM
Ultrasound of Posttraumatic Leg Pain
Nicholas Nacey, MD

4:50 PM–5:30 PM
Ultrasound of High Hamstring Injuries
Johan Michaud, MD

Point-of-Care Ultrasound Assessment of Acute Bowel Pathology
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Trianon
Moderator: Eitan Dickman, MD
This session will address the role of ultrasonography when caring for patients with acute abdominal pain. On completion of this course, participants should be able to describe the ultrasonographic appearance of colitis, diverticulitis, inflammatory bowel disease, pneumoperitoneum, and mesenteric ischemia, as well as confirm the proper placement of a nasogastric tube.

3:30 PM–4:00 PM
Sonographic Evaluation of Abdominal Pain: Focus on Mesenteric Ischemia and Diverticulitis
John Pellerito, MD

4:00 PM–4:30 PM
Case-Based Approach to Sonographic Bowel Assessment
Gerardo Chiricolo, MD

4:30 PM–5:00 PM
In the Pipeline: Novel Gastrointestinal Ultrasound Applications
Mark Tessaro, MD

5:00 PM–5:30 PM
Sonographic Diagnosis of Acute Abdominal Pain
Eitan Dickman, MD

Therapeutic Ultrasound
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Concourse A
Moderator: Timothy Bigelow, MD
This session will cover: (1) oncologic applications of therapeutic ultrasound; (2) sonothrombolysis; and (3) vascular applications of therapeutic ultrasound: neuromodulation/stimulation.

3:30 PM–4:00 PM
Vascular Applications of Therapeutic Ultrasound: Sonothrombolysis
Andrei Alexandrov, MD, RVT

4:00 PM–4:30 PM
Oncologic Applications of Histotripsy
Jim Bertolina, PhD

4:30 PM–5:00 PM
Therapeutic Ultrasound on Neuromodulation/Stimulation
Randy King, PhD

5:00 PM–5:30 PM
Challenges and Promises of Neuromodulation
Robert Muratore, PhD

4:30 PM–5:30 PM
Special Interest Session

Advanced Carotid Ultrasound
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Beekman
Moderator: Leslie Scoutt, MD
This session will describe complex ultrasound examinations of the carotid arteries, with technical pitfalls and uncommon pathology.

4:30 PM–5:00 PM
Advanced Carotid Disease
Eugene Zierler, MD

5:00 PM–5:30 PM
Nonatherosclerotic Carotid Pathology
Leslie Scoutt, MD

5:30 PM–6:00 PM
Therapeutic Ultrasound Community Meeting
Concourse A
You will want to make sure one of your first stops is the AIUM Resource Center at booth #1000!

Browse and preview the many educational products that the AIUM has to offer.
Saturday, March 19, 2016

Day at a Glance

6:30 AM–4:30 PM  Convention Registration Open
7:00 AM–8:00 AM  Just Images and Comprehensive Refresher Sessions
                 Journal of Ultrasound in Medicine Editorial Board Meeting
8:15 AM–10:15 AM  Special Interest Sessions
                  Hands-on Special Interest Session
9:00 AM–10:00 AM  Membership Committee Meeting
9:30 AM–4:00 PM   Exhibit Hall Open
                  E-Posters Open for Viewing
10:15 AM–11:00 AM  Cardiovascular Ultrasound Community Meeting
                  Elastography Community Meeting
                  Neurosonology Community Meeting
11:00 AM–12:30 PM  General and Abdominal Ultrasound Community Meeting
                  Special Interest Sessions
11:00 AM–12:00 PM  Musculoskeletal Ultrasound Community Meeting
12:30 PM–1:30 PM   Scientific Sessions
                  Contrast-Enhanced Ultrasound Community Meeting
                  Gynecologic Ultrasound Community Meeting
12:30 PM–1:30 PM   Lunch in the Exhibit Hall (Americas Hall II)
12:30 PM–1:30 PM   Clinical Standards Committee Meeting
                  Presidential Advisory Committee Meeting
1:30 PM–3:30 PM    Special Interest Sessions
                  Hands-on Special Interest Session
                  Ultrasound Practice Accreditation Council Meeting
2:30 PM–3:00 PM    Pediatric Ultrasound Community Meeting
3:00 PM–4:00 PM    Interventional-Intraoperative Ultrasound Community Meeting
4:00 PM–5:30 PM    Special Interest Sessions
                  Hands-on Special Interest Session
                  Scientific Sessions
                  Ultrasound in Global Health Interest Group Meeting
                  Accreditation Tutorial
5:30 PM–6:00 PM   Sonography Community Meeting
6:00 PM–7:00 PM    Sonographer Networking Reception
                   (by invitation only)
SATURDAY MARCH 19TH

7:00 AM–8:00 AM
Special Interest Sessions

Acute Care in Gynecology
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Grand Ballroom West
Moderator: Leslie Scoutt, MD
This session will review common etiologies of acute pelvic pain and gynecologic causes of acute pelvic pain in the nonpregnant patient.

7:00 AM–7:25 AM
Adnexal Torsion
Arthur Fleischer, MD
7:25 AM–7:50 AM
Nontorsion Etiologies of Acute Pelvic Pain
Sheila Sheth, MD

Clinical Applications of Contrast-Enhanced Ultrasound: Case-Based Approach
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Concourse A
 Moderator: Michelle Robbin, MD, MS
On completion of this session, participants will understand: (1) how contrast can be used off-label today; and (2) how contrast-enhanced ultrasound can be integrated into daily practice as a problem-solving tool in abdominal imaging.

7:00 AM–7:30 AM
Renal Contrast-Enhanced Ultrasound Cases
Jessica Zarzour, MD

7:30 AM–8:00 AM
Contrast-Enhanced Ultrasound Cases: All the Rest
Wui Chong, MD

Just Images: Breast Elastography
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Sutton Center
Moderator: Richard Barr, MD, PhD
Faculty: Stamatia Destounis, MD
This session will showcase breast-imaging cases, highlighting how elastography makes a difference in supporting the overall Breast Imaging Reporting ad Data System. The learner will see a variety of cases showing both compression strain and shear wave elastography and how the use of elastography is contributing to the overall interpretation.

Interesting Cases in Acute Care
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Trianon
Moderator: Charlotte Henningsen, MS, RT, RDMS, RVT
This session is designed for physicians and sonographers who are involved with caring for patients who are acutely ill. On completion of this session, participants should be able to describe the role of ultrasonography in identifying pathologic conditions that require emergent intervention. Case-based presentations will also be used to illustrate which other imaging modalities may be used when evaluating these types of patients.

7:00 AM–7:30 AM
Interesting Cases: A View From the Emergency Department
Charlotte Henningsen, MS, RT, RDMS, RVT
7:30 AM–8:00 AM
Ultrasound in the Emergency Department: Using Ultrasound First
Refky Nicola, DO, MS

Just Images: Vascular Emergencies
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Beekman
Moderator: Gowthanam Gunabushanam, MD
The objective of this session is to describe the role of ultrasound in assessing patients presenting with vascular emergencies

7:00 AM–7:30 AM
Vascular Emergencies in the Abdomen
Margarita Revzin, MD
7:30 AM–8:00 AM
Vascular Emergencies in the Peripheral Arteries and Veins
Gowthanam Gunabushanam, MD
Learning From Our Mistakes: Where We Got Fooled

Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

Grand Ballroom East
Moderator: Alfred Abuhamad, MD

On completion of this session, participants should be able to describe some of the pitfalls encountered in the evaluation of fetal anomalies.

7:00 AM–7:20 AM
Cyst in the Posterior Fossa: Not Always a Dandy-Walker Malformation
Elena Sinkovskaya, MD, PhD, RDMS, RDCS

7:20 AM–7:40 AM
Anomalous Pulmonary Venous Return: Factors That Lead to a Correct or Missed Diagnosis
Anita Moon-Grady, MD

7:40 AM–8:00 AM
Transposition of the Great Arteries: Why This Diagnosis Is Frequently Missed
Alfred Abuhamad, MD

Normal Fetal Heart Examination: Chambers, Arteries, and Veins

Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

Sutton North
Moderator: Joshua Copel, MD

The objective of this session is to review the cardiovascular anatomy that should be assessed during routine assessment of the fetal heart.

7:00 AM–7:20 AM
Detailed 4-Chamber View Examination
Reem Abu Rustum, MD

7:20 AM–7:40 AM
Outflow Tracts and Arches
Luís Gonçalves, MD

7:40 AM–8:00 AM
Systemic and Pulmonary Veins
Tracy Anton, BS, RDMS, RDCS

Prenatal Ultrasound Abnormalities of the Chest, Abdomen, and Pelvis With Postnatal Correlation

Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

Sutton South
Moderator: Mariana Meyers, MD

Prenatal ultrasound is the main screening and diagnostic modality for many fetal anomalies. Correlation of prenatally detected abnormalities with postnatal studies is not always available in many centers. Here we will review the ultrasound features of the most common fetal thoracic, abdominal, and pelvic abnormalities and their postnatal imaging appearances.

7:00 AM–7:20 AM
Prenatal Ultrasound Abnormalities of the Chest With Postnatal Correlation
Amy Mehollin-Ray, MD

7:20 AM–7:40 AM
Prenatal Ultrasound Abnormalities of the Abdomen With Postnatal Correlation
Kimberly Dannull, MD

7:40 AM–8:00 AM
Prenatal Ultrasound Abnormalities of the Pelvis With Postnatal Correlation
Carol Barnewolt, MD

Journal of Ultrasound in Medicine Editorial Board Meeting

Mercury
SATURDAY MARCH 19TH

8:15 AM–10:15 AM
Special Interest Sessions

**Breast Lumps in Teenagers: The “Black Hole” of Pediatric Radiologists**
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits, and SAMs Credits
**Nassau**
Moderator: Mariana Meyers, MD  
Faculty: Regina Hooley, MD, FSBI, Brigid Killelea, MD  
Have you ever been asked to read a breast ultrasound in a teenager for a "lump" and panicked? If you have, then come join us while we review benign and malignant breast "lumps" in teenagers by ultrasound. This session will review the most common benign and malignant breast lesions in the teenage population and how to identify them by ultrasound.

**Can Fetal Echocardiography Predict the Future? (Progression of Pathology Through Gestation)**
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
**Sutton North**
Moderator: Jack Rychik, MD  
Fetal cardiac lesions, though usually present early in gestation, may continue to evolve through gestation; there may be development or progression of the ventricular inflow or outflow tract and arch obstruction, and cardiac tumors may develop, grow, or regress. Knowledge of the mechanisms of and potential for progression in fetal heart disease is critical for counseling regarding prognosis and for planning of prenatal and neonatal evaluation and management.

8:15 AM—8:35 AM  
**Cardiac Tumors**  
Shab Peyvandi, MD

8:45 AM—9:15 AM  
**Right Ventricular Outflow Tract Obstruction**  
Helena Gardiner, MD, PhD, FRCP, FRCPCH

9:15 AM—9:45 AM  
**Asymmetric Ventricles**  
Jack Rychik, MD

9:45 AM—10:15 AM  
**Aortic Stenosis and Hypoplastic Left Heart Syndrome**  
Wayne Tworetzky, MD

Clinical Applications of Ultrasound Contrast: Part 1
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
**Concourse G**
Moderator: Michelle Robbin, MD, MS  
On completion of this session, participants will understand: (1) how contrast-enhanced ultrasound (CEUS) can be used off-label; (2) how CEUS can be integrated into daily practice; and (3) when to use US contrast as a problem-solving tool.

8:15 AM—8:35 AM  
**How to Integrate Contrast-Enhanced Ultrasound Into Clinical Practice**  
Michelle Robbin, MD, MS

8:35 AM—8:55 AM  
**Role of Contrast-Enhanced Ultrasound Radiation Reduction**  
Paul Sidhu, BSc, MBBS, MRCP, FRCR

8:55 AM—9:15 AM  
**Technique and Instrumentation: A Sonographer Perspective**  
Maria Stanczak, MS, RDMS, RVT, RT(M)

9:15 AM—9:35 AM  
**Contrast-Enhanced Ultrasound of Liver Masses**  
Stephanie Wilson, MD, MS

9:35 AM—9:55 AM  
**Contrast-Enhanced Ultrasound Evaluation of Genitourinary/Renal Masses**  
Richard Barr, MD, PhD

9:55 AM—10:15 AM  
**Contrast-Enhanced Ultrasound of Small Parts**  
David Cosgrove, MA, MSc, FRCP, FRCR
Compressional Sound Speed Imaging
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

Concourse A
Moderators: Paul Carson, PhD, Michael Oelze, PhD

The objectives of this session are to: (1) meet the anticipated need for information on speed of sound (SOS) imaging as it is being tested in the transmission mode for Food and Drug Administration approval and being considered for use in commercial pulse echo systems; (2) explain the spatial frequencies and the variability and bias expected in transmission and reflection mode imaging and in their combinations as a function of available apertures; (3) explain the expected hardware and computational burdens; and (4) relay the state of the art in SOS imaging.

8:15 AM–8:25 AM
Introduction

8:25 AM–8:50 AM
Imaging Speed of Sound Using Pulse Echo
Michael Jaeger, PhD

8:50 AM–9:15 AM
Nonlinear Inverse Scattering and Imaging: Chance for a More Active Role
Michael Gelze, PhD

9:15 AM–9:40 AM
Three-Dimensional Full-Wave Nonlinear Inverse Scattering: Applications to High-Resolution Breast Imaging and Quantitative Results
Jim Wiskin, PhD

9:40 AM–10:05 AM
Breast Sound Speed Imaging: From Ray Tomography to Waveform Tomography
Cuiping Li, PhD

10:05 AM–10:15 AM
Questions and Answers

Hands-on Evaluation of Chronic Venous Insufficiency
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

Rendezvous Trianon
Moderator: George Berdejo, RVT
Faculty: George Berdejo, RVT, John Blebea, MD, Joshua Cruz, MD, Roy Fujitani, MD, Gowthanam Gunabushanam, MD, Jeffrey Indes, MD, Margarita Rezvani, MD, Susan Smith, MD, Eugene Zierler, MD, RVHT

At the completion of this activity, participants will be able to perform a directed physical examination of the patient with chronic venous insufficiency (CVI) and understand and predict the common patterns of venous reflux, outline the anatomy andlearn the recent new terminology of the superficial and deep venous system of the pelvis and lower extremities, and perform a detailed and relevant preoperative ultrasound evaluation in the patient with CVI.

8:15 AM–8:45 AM
Mapping of Venous Insufficiency
Joshua Cruz, RDMS, RVT

Medicolegal Issues in Obstetric Ultrasound
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

Grand Ballroom East
Moderator: James Shwayder, MD, JD

The objectives of this session are to: (1) evaluate challenging obstetric cases in each trimester and the associated medicolegal aspects; and (2) discuss appropriate documentation and follow-up of challenging fetal cases.

8:15 AM–8:45 AM
Liability in Early Pregnancy
James Shwayder, MD, JD

8:45 AM–9:15 AM
Liability in the Second and Third Trimesters
Steven Warsof, MD

UGRA Musculoskeletal Elastography
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

Regent
Moderators: Amy Lex, RT, RDMS, Nathalie Bureau, MD, FRCPC, MSc

This session will address the current role of elastography in the characterization of musculoskeletal disorders.

8:15 AM–8:55 AM
Techniques and Challenges of Musculoskeletal Elastography
Amy Lex, RT, RDMS
**SATURDAY MARCH 19TH**

8:55 AM—9:35 AM  
**Review of the Literature**  
Cristy Gustas, MD

9:35 AM—10:15 AM  
**Current Applications and Future Trends**  
Jennifer Pierce, RDMS

9:45 AM—10:00 AM  
**Adnexal Pathology: Using 3-Dimensional Ultrasound to Increase Diagnostic Accuracy**  
Yvette Groszmann, MD

10:00 AM—10:15 AM  
**Questions and Answers**

---

**Neonatal Head Sonography**  
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

*Sutton South*  
**Moderator: Beth Kline-Fath, MD**

The objective of this session is to review normal neonatal head sonography and then compare it to congenital pathology and encephaloclastic events.

8:15 AM—8:55 AM  
**Normal Head Ultrasound**  
Martha Munden, MD

8:55 AM—9:35 AM  
**Congenital Brain Malformations**  
Beth Kline-Fath, MD

9:35 AM—10:15 AM  
**Destructive Lesions of the Brain**  
Dorothy Bulas, MD

---

**Three-Dimensional Gynecology**  
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

*Grand Ballroom West*  
**Moderator: Rochelle Andreotti, MD**

This session will provide an introduction and image review for 3-dimensional images in gynecology.

8:15 AM—8:45 AM  
**Three-Dimensional Gynecologic Ultrasound**  
William Brown III, MD

8:45 AM—9:15 AM  
**Three-Dimensional Ultrasound in Müllerian Duct Anomalies**  
Yvette Groszmann, MD

9:15 AM—9:45 AM  
**Evaluation of Intracavitary Abnormalities: The Value of the Coronal Plane**  
Rochelle Andreotti, MD

---

**Ultrasound Evaluation of Vascular Emergencies**  
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

*Trianon*  
**Moderator: Christopher Raio, MD**

After this session, participants should be able to integrate hemodynamic information into the interpretation of vascular studies, understand different diagnostic criteria for peripheral arterial disease, compensate for common pitfalls in the sonographic diagnosis of vascular emergencies, and achieve improved patient outcomes through vascular ultrasound practice.

8:15 AM—8:55 AM  
**Sonographic Findings of Vascular Emergencies**  
Leslie Scoult, MD

8:55 AM—9:35 AM  
**Point-of-Care Vascular Ultrasound in Emergency and Critical Care**  
Christopher Raio, MD

9:35 AM—10:15 AM  
**Vascular Scanning Techniques: Pearls and Pitfalls**  
M. Robert De Jong, RDMS, RDCS, RVT

9:00 AM—10:00 AM  
**Membership Committee Meeting**  
East

10:15 AM—11:00 AM

Film Panel: Unknown Cases
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Grand Ballroom West
Moderator: Beryl Benacerraf, MD, Misty Blanchette Porter, MD
Faculty: Yvette Groszmann, MD, MPH, Stefano Guerrierio, MD, Dirk Timmerman, MD, PhD, FRCOG
This session will review unknown images in gynecology with experts.

Interesting Ultrasound Cases From Resource-Limited Settings
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Concourse G
Moderator: Sanjiv Bajaj, MD
This session will present important case-based topics relevant to the use of ultrasound in resource-limited settings. Topics may include the use of ultrasound in diagnosing tropical diseases, advanced disease that is not typically seen in the United States, and use in human immunodeficiency virus patients with opportunistic coinfections, including tuberculosis. This will include image review of cases submitted by our Ultrasound in Global Health Interest Group and a presentation of current research on the topic.

Just Images: First-Trimester Ultrasound
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Grand Ballroom East
Moderator: Timothy Canavan, MD, MSc
Faculty: Mary Frates, MD, Andrei Rebarber, MD
Topics in this session will include: (1) review of landmarks and imaging modalities used in the first trimester; (2) recognition of normal and abnormal first-trimester studies, including adnexal pathology detected in the first trimester; and (3) pitfalls in first-trimester imaging.

11:00 AM–12:30 PM

Special Interest Sessions

Abnormalities of the Fetal Venous System
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Grand Ballroom East
Moderators: Liat Gindes, MD, Julia Solomon, MD
Evaluation of the fetal venous system has lagged behind other cardiac and arterial vascular assessment, but it has now become well recognized as a target for investigation in cases of circulatory compromise. A broad spectrum of malformations affecting this system has been described, including abnormalities of systemic and pulmonary venous return, as well as portal, umbilical, and ductus venosus abnormalities. This session will review the anatomy of the fetal venous system and outline the abnormalities that may affect these structures as well as the associated adverse outcomes.

1:30 pm–2:00 pm
Abnormalities of Systemic Venous Return
Julia Solomon, MD

2:00 pm–2:30 pm
Abnormalities of the Ductus Venosus and Portal Hepatic Venous Return
Liat Gindes, MD

2:30 pm–3:00 pm
Pulmonary Venous Return Abnormalities
Christopher Lindblade, MD

3:00 pm–3:30 pm
Cerebral Venous Anatomy and Malformations
Ana Monteagudo, MD

Abnormal Uterine Bleeding
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Grand Ballroom West
Moderator: Misty Blanchette-Porter, MD
This session will review common causes of abnormal uterine bleeding, sonohysterography, and indications for endometrial biopsy.

1:30 pm - 2:10 pm
Abnormal Uterine Bleeding: The Standard of Care has Changed
Misty Blanchette-Porter, MD
2:10 PM–2:50 PM  
**Sonographic and Hysteroscopic Correlation**  
*William Brown III, MD*

2:50 PM–3:30 PM  
**Adenomyosis and Fibroids**  
*Dirk Timmerman, MD, PhD, FRCOG*

---

**Clinical Applications of Ultrasound Contrast: Part 2**

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits

**Concourse A**

Moderator: Arthur Fleischer, MD

On completion of this course, participants will understand: (1) how contrast-enhanced ultrasound (CEUS) can be used off-label; (2) how CEUS can be integrated into daily practice; and (3) when to use ultrasound contrast as a problem-solving tool.

1:30 PM–1:50 PM  
**Contrast-Enhanced Ultrasound Liver Imaging Reporting and Data Systems (CEUS LI-RADS)**  
*Yuko Kono, MD, PhD*

1:50 PM–2:10 PM  
**Contrast-Enhanced Ultrasound in Tumor Chemotherapy Monitoring**  
*Nathalie Lassau, MD*

2:10 PM–2:30 PM  
**Contrast-Enhanced Ultrasound in Tumor Ablation Monitoring**  
*Flemming Forsberg, PhD*

2:30 PM–2:50 PM  
**Gynecologic Applications of Contrast-Enhanced Ultrasound**  
*Nitin Chaubal, MD*

2:50 PM–3:10 PM  
**Contrast-Enhanced Ultrasound Evaluation of Trauma Patients**  
*David Cosgrove, MA, MSc, FRCP, FRCR*

3:10 PM–3:30 PM  
**Contrast-Enhanced Ultrasound in the Management of Indeterminate Focal Testicular Lesions**  
*Paul Sidhu, BSc, MBBS, MRCP, FRCR*

---

**Complex Cutting-Edge Pediatric Ultrasound**

Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Sutton North**

Moderator: Leann Linam, MD

After this session, participants should recognize the uses of contrast-enhanced ultrasound in pediatric practice, understand how to implement a sonographic voiding cystourethrography service, be aware of modern Doppler techniques and their potential applications, gain familiarity with the concept of sonographic elastography, and determine applications for elastography in pediatric practice.

1:30 PM–1:42 PM  
**Contrast Voiding Cystourethrography**  
*Kassa Darge, MD, PhD*

1:42 PM–1:54 PM  
**Elastography Basics**  
*Leann Linam, MD*

1:54 PM–2:06 PM  
**Intravascular Ultrasound Contrast in Pediatrics**  
*Mary Beth McCarville, MD*

2:06 PM–2:18 PM  
**Elastography Applications**  
*Martha Munden, MD*

2:18 PM–2:30 PM  
**Superb Micro Doppler Imaging**  
*Sara O’Hara, MD*
Design Updates for Nontraditional Applications of Point-of-Care Ultrasound

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Trianon

Moderators: Oliver Kripfgans, PhD, Philip Levy, MD

After this session, participants should be able to discuss recent advances in the use of nontraditional clinical applications of point-of-care ultrasound (POCUS). Topics will include patient-performed POCUS, algorithm, workflow, and automation solutions, high-intensity focused ultrasound, and ethical challenges of POCUS. The course will focus on the impact of these nontraditional applications of ultrasound on teaching, research, and clinical practice and help identify potential areas for collaboration and innovation.

1:30 PM–1:40 PM
Introduction

1:40 PM–2:00 PM
The Disruption Continues: Patient-Performed POCUS
Vicki Noble, MD

2:00 PM–2:20 PM
Resuscitation Ultrasound: At the Interface of Emergency and Critical Care Ultrasound
Nikhil Theyyunni, MD

2:20 PM–2:40 PM
Algorithms and Automation Solutions for POCUS
Nahi Halmann, PhD

2:40 PM–3:00 PM
Integration of POCUS Into Digital Work Flow
Christopher Bryczkowski, MD

3:00 PM–3:20 PM
Reshaping the POCUS Map: Translating the Science Into Reality
Jason Nomura, MD

3:20 PM–3:30 PM
Questions and Answers

Hands-on Hip Ultrasound (Sold out)

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Rendezvous Trianon

Moderators: Girish Gandikota, MBBS, FRCS, FRCR, RMSK, Colin Strickland, MD

Faculty: Nathalie Bureau, MD, FRCPC, MSc, Joseph Craig, MB, ChB, Patricia Delzell, MD, Girish Gandikota, MBBS, FRCS, FRCR, RMSK, Cristy Gustas, MD, Marnix van Holsbeeck, MD, Jon Jacobson, MD, Johan Michaud, MD, Levon Nazarian, MD, Daniel Nissman, MD, MPH, MSEE, Humberto Rosas, MD, Colin Strickland, MD

At the completion of this session, participants will have gained hands-on experience in performing comprehensive ultrasound examinations of the hip.

Just Images: Uncommon Vascular Pathology

Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Beekman

Moderator: Leslie Scoutt, MD

The objective of this session is to describe the role of ultrasound in the evaluation of abdominal vascular pathology.

1:30 PM–2:00 PM
Uncommon Vascular Pathology: Part 1
Margarita Revzin, MD

2:00 PM–2:30 PM
Uncommon Vascular Pathology: Part 2
Deborah Rubens, MD

Renal Doppler Ultrasound: How Far Can You Go?

Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Beekman

Moderator: Margarita Revzin, MD

The objective of this session is to describe how to do a renal Doppler exam, the role of ultrasound in the evaluation of renovascular hypertension (RVHT), the interventional approach to RVHT, and the role of ultrasound in evaluating other renal vascular pathology.

2:30 PM–3:00 PM
Doppler Ultrasound of the Renal Arteries
Deborah Rubens, MD

3:00 PM–3:30 PM
To Intervene or Not to Intervene: That Is the Question
Eugene Zierler, MD
Ultrasound-Guided Intervention: State-of-the-Art Techniques in Biopsy, Managing Coagulopathy, and Avoiding Complications

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits, and SAMs Credits.

Sutton Center

Moderator: Nami Azar, MD

The objectives of this session are to: (1) educate the audience on how to utilize novel approaches and fusion technology to perform difficult biopsies and possible ablations; (2) provide an overview of coagulation parameters and anticoagulant medications and guidelines on managing coagulopathy; and (3) provide recommendations on how to manage and approach fluid collections in the body for drainage.

1:30 PM–2:00 PM
Managing Coagulopathy in Patients Undergoing Invasive Procedures
Corinne Deurdulian, MD

2:00 PM–2:30 PM
Ultrasound-Guided Procedures Beyond the Conventional
Dean Huang, BmedSci, BMBS, MRCPCH, FRCR, EBI

2:30 PM–3:00 PM
Avoiding Complications: What to Look for Besides the Needle
Dean Nakamoto, MD

3:20 PM–3:30 PM
Questions and Answers

Ultrasound of the Patient With a Thyroid Nodule: Basic Anatomy and Preoperative and Postoperative Evaluation

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Sutton South

Moderator: Sharlene Teefey, MD

The objectives of this session are to review the anatomy of the neck and introduce the new American Thyroid Association guidelines for evaluating thyroid nodules and the post-thyroidectomy patient.

1:30 PM–2:10 PM
Evaluation of Lymph Nodes in the Patient with Papillary Thyroid Carcinoma
Sharlene Teefey, MD

2:10 PM–2:50 PM
New American Thyroid Association Guidelines: When to Biopsy a Thyroid Nodule
Mary Frates, MD

2:50 PM–3:30 PM
Postoperative Ultrasound Surveillance in Thyroid Carcinoma
James Etzkorn, MD

1:30 PM–3:30 PM
Ultrasound Practice Accreditation Council Meeting

Concourse G

Moderator: Megan Leo, MD, RDMS

This session will serve to present a few very important topics relevant to the use of ultrasound in resource-limited settings. Responsible ultrasound training programs and research in ultrasound usage have the potential to improve health care outcomes in underserved communities around the world. Topics are to include a Rwandan physician’s perspective on the integration of ultrasound into local medical practice, the training and research experiences of a cardiac sonographer who is a leading expert in the diagnosis and treatment of rheumatic heart disease around the globe, and pearls from a successful physician researcher on navigating the international Institutional Review Board. This lecture series aims to connect members with an interest in these important areas.

Controversies in Obstetric Doppler Ultrasound
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Grand Ballroom East**

**Moderator: Donna Neale, MD**

On completion of this session, participants should demonstrate an understanding of obstetric Doppler technology and appropriate indications for obstetric Doppler use in clinical practice.

- **4:00 PM–4:15 PM**
  - The Use of Uterine Artery Doppler Studies for the Prediction of Preeclampsia: Pros
    - Donna Neale, MD
- **4:15 PM–4:30 PM**
  - The Use of Umbilical Artery Doppler Studies for the Management of Intrauterine Growth Restriction: Pros
    - Ray Bahado-Singh, MD
- **4:30 PM–4:45 PM**
  - The Use of Middle Cerebral Artery Doppler Studies for the Management of Fetal Growth Restriction: Challenges
    - Ray Bahado-Singh, MD
- **4:45 PM–5:00 PM**
  - The Use of Umbilical Artery Doppler Studies for the Management of Intrauterine Growth Restriction: Challenges
    - Jude Crino, MD
- **5:00 PM–5:15 PM**
  - The Use of Middle Cerebral Artery Doppler Studies for the Management of Fetal Anemia: Pros
    - Giancarlo Mari, MD
- **5:15 PM–5:30 PM**
  - The Use of Uterine Artery Doppler Studies for the Prediction of Preeclampsia: Challenges
    - Giancarlo Mari, MD

**UGRA Becoming an Evidence-Based Practitioner**

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Gibson**

**Moderator: Shawn Roll, PhD, OTR/L, CWCE, RMSK**

This session will provide an overview of the skills necessary for sonography professionals to become successful evidence-based practitioners, including critical analysis of published scientific literature, building practice-based evidence, and balancing evidence-based practice with a busy clinical schedule.

- **4:00 PM–4:30 PM**
  - Building Practice-Based Evidence Through Clinical Research and Database Development
    - Kevin Evans, PhD, RT(R)(M)(BD), RDMS, RVS
- **4:30 PM–5:00 PM**
  - Finding, Reading, and Assessing Evidence in Published Literature
    - Shawn Roll, PhD, OTR/L, CWCE, RMSK
- **5:00 PM–5:30 PM**
  - Practical Techniques for Incorporating Evidence-Based Practice Into a Busy Clinical Schedule
    - Kathryn Zale, MS, RDMS, RVT
Hands-on Carotid and Transcranial Doppler Ultrasound

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Rendezvous Trianon
Moderator: Digna Cabral, BS
Faculty: Andrei Alexandrov, BS, RVT, Eva Bartels, MD, PhD, John Bennett, MD, George Berdejo, BA, RVT, John Blebea, MD, MBA, Nelly Campos, MD, RVT, M. Robert De Jong, RDMS, RDCS, RVT, Zsolt Garami, MD, Jennifer McDowell, MM, RVT, RDMS, RT, Tatjana Rundek, MD, PhD, , Leslie Scoutt, MD, Charles Tegeler, MD

This session is designed to provide strategies, technical approaches, and practical guidance for arterial vascular access and to provide basics on scanning and interpretation of carotid ultrasound and transcranial Doppler ultrasound.

Ultrasound After 5:00 PM

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Sutton South
Moderator: Gayatri Joshi, MD

The objectives of this session are: (1) to list the conditions that may present as acute pain after working hours; (2) to describe the sonographic signs and features of the presenting disease; and (3) to describe the differential diagnosis and sonographic features that help in diagnosis.

4:00 PM–4:20 PM
The Acute Scrotum
Wui Chong, MD

4:20 PM–4:40 PM
Acute Right Lower Quadrant Pain
Ravi Kadasne, MD

Day at a Glance

6:30 AM–4:30 PM  Convention Registration Open
7:00 AM–8:00 AM  Special Interest Sessions
7:00 AM–8:00 AM  Council on Communities Meeting
8:15 AM–10:15 AM  Continuing Medical Education (CME) Committee Meeting
                   Special Interest Sessions
                   Hands-on Special Interest Session
9:30 AM–4:00 PM  Exhibit Hall Open
                   E-Posters Open for Viewing
10:15 AM–11:00 AM  Basic Science and Instrumentation Community Meeting
11:00 AM–12:30 PM  Special Interest Sessions
                   Scientific Sessions
12:30 PM–1:30 PM  Fetal Echocardiography Community Meeting
                   Point-of-Care Ultrasound Community Meeting
12:30 PM–3:30 PM  Executive Committee Meeting
12:30 PM–1:30 PM  Lunch in the Exhibit Hall (Americas Hall I)
1:30 PM–3:30 PM  Special Interest Sessions
3:00 PM–3:30 PM  Break in Exhibit Hall
4:00 PM–5:30 PM  Special Interest Sessions
                   Scientific Sessions
                   Obstetric Ultrasound Community Meeting
                   Leadership Banquet (by invitation only)
SUNDAY MARCH 20TH

7:00 AM–8:00 AM
Special Interest Sessions

Coding and Billing in Obstetric Ultrasound
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits
Grand Ballroom West
Moderator: Joshua Copel, MD
On completion of this session, participants should be able to describe the correct method of coding and billing obstetric ultrasound.

7:00 AM–8:00 AM
Ultrasound Pearls to Be a Better Medical Partner in the New Affordable Care Act Era: Appropriate Billing of Ultrasound Under ICD-10
Joshua Copel, MD

Elastography
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credit.
Sutton Center
Moderator: Amy Lex, MS, RT(R), RDMS
The objectives of this session are to review indications and guidelines, describe techniques, and highlight tips and tricks for multiple applications. The emphasis will be on techniques already shown to be of clinical value. Newer in-process applications will be included in shorter talks. An update on state-of-the-art elastography will be provided.

7:00 AM–7:20 AM
Musculoskeletal
Ogona Nwawka, MD

7:20 AM–7:40 AM
Other
David Cosgrove, MA, MSc, FRCP, FRCR

7:40 AM–8:00 AM
Liver
Michelle Robbin, MD, MS

How to Be an Effective Manuscript Reviewer for the Journal of Ultrasound in Medicine
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Nassau
Moderator: Levon Nazarian, MD
At the end of this educational session, participants will be able to: (1) identify the steps required to complete the peer-review process for manuscripts; (2) assess the importance of the service that reviewers provide to the Journal of Ultrasound in Medicine; and (3) distinguish the components of a top-quality peer review.

Interplay of Genetics and the Fetal Heart: Different Problems, Different Perspectives
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Sutton North
Moderator: Dolores Pretorius, MD
This session will address the current role of echocardiography in the evaluation of patients with known or suspected aneuploidy and other common genetic conditions. On completion of this session, participants should be able to: (1) describe how echocardiography is currently used in the evaluation for aneuploidy and the role of cardiac and noncardiac “soft markers” from the perspective of the sonologist and the echocardiographer; (2) identify targets for genetic testing based on a cardiac anomaly diagnosis; and (3) be aware of controversial and unclear aspects of this area in prenatal diagnostics.
Just Images: Perinatal Neurosonography
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.

Moderator: Beth Kline-Fath, MD
The objective of this session is to provide examples of difficult prenatal ultrasound cases for the approach to the workup and outcome.

7:00 AM–7:20 AM
Case Presentation
Usha Nagarja, MD

7:20 AM–7:40 AM
Case Presentation
Mariana Meyers, MD

7:40 AM–8:00 AM
Case Presentation
Amy Mehollin-Ray, MD

Peripheral Arterial Disease: Consult Through Intervention and Follow-up Surveillance
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.

Moderator: Gowthanam Gunabushanam, MD
At the end of this session, participants will have acquired better understanding of how to non-invasively evaluate and assess the patient with peripheral arterial disease, use diagnostic ultrasound in the preoperative workup and planning, and assess the intervention and patient long term using duplex ultrasound and other noninvasive techniques.

7:00 AM–7:30 AM
Screening for Peripheral Vascular Disease
George Berdejo, BA, RVT

7:30 AM–8:00 AM
Intervention and Follow-up of Patients With Peripheral Arterial Disease
John Blebea, MD

Three- and Four-Dimensional Ultrasound for the Advanced Assessment of Fetal Abnormalities
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credit.

Moderator: Julia Solomon, MD, CM
Many ultrasound machines currently in use by practitioners have 3- and 4-dimensional or volume-based imaging capabilities. However, the use of this imaging is often limited to surface rendering of the fetal face, as there is a deficit in training of both physicians and sonographers in the use of adjunctive volume-based modalities. This session aims to demonstrate how more advanced 3- and 4-dimensional modalities such as skeletal renderings, volume calculations, and color or glass body imaging can be used to improve the assessment and diagnosis of structural fetal malformations.

7:00 AM–7:20 AM
Advanced 3- and 4-Dimensional Assessment of the Cranium, Brain, and Palate
Deborah D’Agostini, RDMS

7:20 AM–7:40 AM
Advanced 3- and 4-Dimensional Assessment of Skeletal and Soft Tissue Abnormalities
Lawrence Platt, MD

7:40 AM–8:00 AM
Advanced 3- and 4-Dimensional Cardiac and Vascular Assessment
Julia Solomon, MD, CM

7:00 AM–8:00 AM
Council on Communities Meeting
East
SUNDAY MARCH 20TH

8:15 AM–10:15 AM
Special Interest Sessions

**Acute Head and Neck Ultrasound**
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Trianon*
*Moderator: John Bailitz, MD*

The objectives of this session are: (1) to review sonographic findings of a variety of ophthalmic emergencies, including retinal detachment, vitreous hemorrhage, lens dislocation, intraocular foreign bodies, and globe injury; (2) to discuss the use of sonographic optic nerve sheath diameter in cardiac arrest and stroke patients; (3) to review point-of-care ultrasound evaluation of a wide variety of head and neck conditions, such as peritonsillar abscesses, facial abscesses, dental abscess, sinusitis, epiglottitis, sialolithiasis, sialoadenitis, lymphadenitis, cysts, facial fractures, and skull fractures; and (4) to discuss interventional/therapeutic applications of point-of-care head and neck ultrasound. After this session, participants should be able to integrate point-of-care ultrasound in the assessment of acute head and neck conditions in adult and pediatric patients and use sonographic optic nerve sheath diameter to predict neurologic outcomes in stroke and cardiac arrest patients.

8:15 AM–8:45 AM
*Evolving Applications of Acute Head and Neck Ultrasound*
John Bailitz, MD

8:45 AM–9:15 AM
*Sonographic Findings of Ophthalmic Emergencies*
Richard Calderon, OD

9:15 AM–9:45 AM
*Pediatric Neck Masses in the Emergency Department*
Henrietta Kotlus Rosenberg, MD

9:45 AM–10:15 AM
*Point-of-Care Head and Neck Ultrasound*
Srikar Adhikari, MD, MS

**Adnexal Masses**
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Grand Ballroom West*
*Moderator: James Shwayder, MD, JD*

This session will review imaging criteria to distinguish between benign, borderline, metastatic, and primary invasive masses and review common benign and adnexal masses in pregnancy.

8:15 AM–8:55 AM
*International Ovarian Tumor Analysis Standardized Terminology to Describe Ovarian Tumors and Simple Ultrasound Rules to Characterize Ovarian Masses*
Dirk Timmerman, MD, PhD, FRCOG

8:55 AM–9:35 AM
*Adnexal Masses in Pregnancy*
James Shwayder, MD, JD

9:35 AM–10:15 AM
*International Ovarian Tumor Analysis Trial From 1999 to 2016: What Are the Key Take-home Messages? What Protocol Should Be Used to Evaluate Ovarian Pathology in 2016?*
Dirk Timmerman, MD, PhD, FRCOG

**Hands-on Ultrasound Guidance for Critical Procedures**
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Rendezvous Trianon*
*Moderator: Arun Nagdev, MD*

Faculty: Richard Amini, MD, Lawrence Haines, MD, Daniel Mantuani, MD, Arun Nagdev, MD, Jason Nomura, MD, David Rosenblum, MD, Gary Schwartz, MD

This session will allow participants to increase their comfort with a variety of procedures that can benefit from ultrasound guidance. On completion of this session, participants will be familiar with ultrasound guidance for blocks of the upper and lower extremities, pericardiocentesis, arthrocentesis, and vascular access.

**SAMs**

*How to Be an Ultrasound Hipster: A Comprehensive Radiologist’s and Pediatric Orthopedic Surgeon’s Approach to Groovy Hip Joint Imaging With Ultrasound.*
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits, and SAMs Credits.

*Sutton North*
*Moderator: Rob Goodman, MB, BChir*

This session will address the current role of ultrasound in the pediatric hip from a pediatric radiologist’s and pediatric orthopedic surgeon’s viewpoint. On completion of this session, participants should be able to: (1) recognize the techniques and findings for an irritable hip; (2) understand what the pediatric orthopedic surgeon needs to know from irritable hip ultrasound; (3) recognize the techniques and findings for developmental dysplasia of the hip (DDH); and (4) understand what the pediatric orthopedic surgeon needs to know from DDH hip ultrasound.
8:15 AM–8:45 AM
Developmental Dysplasia of the Hip
Rob Goodman, MB, BChir

8:45 AM–9:30 AM
Irritable Hip
Nadia Mahmood, MD

9:30 AM–10:15 AM
What the Surgeon Needs to Know
Melinda Sharkey, MD

Imaging Pitfalls and Great Calls
Earn up to 1.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Beekman
Moderator: John Blebea, MD
To review pitfalls in vascular ultrasound and common mistakes in technique and interpretation.

8:15 AM–8:45 AM
Great Calls From the Vascular Lab
Eugene Zierler, MD

8:45 AM–9:15 AM
Pitfalls in Vascular Imaging
John Pellerito, MD

Just Images: Contrast-Enhanced Ultrasound
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Concourse G
Moderators: Jean-Michael Correas, MD, Giovanna Ferraioli, MD
The objective of this session is to familiarize the participants with various clinical applications of contrast-enhanced ultrasound.

Noninvasive Testing for Peripheral Arterial Disease: Case-Based Presentations
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Beekman
Moderator: George Berdejo, BA, RVT
Faculty: George Berdejo, BA, RVT, John Blebea, MD, Gowthanam Gunabushanam, MD, Eugene Zierler, MD
This session will describe the role of ankle brachial indices and pulse volume recordings for assessing patients with suspected peripheral vascular disease and discuss the role of Doppler ultrasound in assessing patients with peripheral arterial disease.

Prenatal Imaging of the Fetal Face
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Nassau
Moderator: Amy Mehollin-Ray, MD
The objectives of this session are: (1) to review common prenatal abnormalities of the fetal face; and (2) to review the use of different imaging modalities to evaluate the fetal face.

9:15 AM–9:35 AM
Orbits
Maria Garcia, MD

9:35 AM–9:55 AM
Fetal Cleft Lip and Palate: Improved Accuracy Using Ultrasound and Magnetic Resonance Imaging
Judy Estroff, MD

9:55 AM–10:15 AM
Facial Clefts
Amy Mehollin-Ray, MD

Synthetic Focus Imaging Techniques
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Concourse A
Moderator: Mickael Tanter, PhD
This session will give an overview of new focusing methods for advanced ultrasound imaging. These include synthetic aperture ultrasound imaging, plane wave imaging, retrospective focusing, adaptive beam forming, frequency domain beam forming, and dual-stage beam forming, which all break with the conventional single-emission–single-transmit focusing paradigm. After this session, participants will be able to understand the principles behind these new imaging modalities and their relative strengths and weaknesses.

8:15 AM–8:35 AM
Adaptive Beam Forming in Ultrasound
Andreas Austeng, PhD

8:35 AM–8:55 AM
Plane Wave Focusing for Sensitive Flow Imaging
Mickael Tanter, PhD

8:55 AM–9:15 AM
Dual-Stage Beam Forming for Compact Synthetic Aperture Scanning
Martin Hemmsen, PhD

9:15 AM–9:35 AM
Generalized Synthetic Transmit Focusing Techniques
David Napolitano, PhD
SUNDAY  MARCH  20TH

9:35 AM–9:55 AM  
**Synthetic Aperture Focusing Methods**  
Jorgen Arendt Jensen, PhD

9:55 AM–10:15 AM  
**Circular Wave Focusing With Integrated Motion Compensation for Cardiac Imaging**  
Damien Garcia, PhD

The Fetal Abdomen: Beyond the Basics

Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.

**Grand Ballroom East**

**Moderator:** Beverly Coleman, MD

Because the anatomy of the gastrointestinal tract is less well delineated in the fetus, discrete abnormalities are often poorly appreciated and defined as either “cystic or solid.” However, the exact pathologic correlate, as well as significant associations and implications for care, remain undiagnosed. This session will aim to give an image-based review of abnormalities of the fetal gastrointestinal tract, with specific attention to anatomic correlates and associated concerns. On completion of the session, participants will have an understanding of the etiology of both cystic and solid masses of the gastrointestinal tract and how to evaluate them.

8:15 AM–8:35 AM  
**Atresias: TuBe or Not TuBe—That Is the Question**  
Anne Kennedy, MD

8:35 AM–8:55 AM  
**In and Around the Fetal Liver**  
Beverly Coleman, MD

8:55 AM–9:15 AM  
**Differential Diagnosis of Abdominal Cysts**  
Paula Woodward, MD

**UGRA** Ultrasound-Guided Tendon Procedures: Techniques, Tips, and Tricks

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Regent**

**Moderators:** Ron Adler, MD, PhD, Jon Jacobson, MD

The objective of this session is to review different ultrasound-guided percutaneous procedures to treat tendon disorders.

8:15 AM–8:35 AM  
**Percutaneous Treatment of Calcific Tendinopathy**  
Corrie Yablon, MD

10:15 AM–11:00 AM  
Basic Science and Instrumentation Community Meeting

Concourse A

11:00 AM–12:30 PM  
Special Interest Sessions

Complications of Monochorionicity

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Grand Ballroom East**

**Moderators:** Anita Moon-Grady, MD, Ruben Quintero, MD

This session is designed to educate attendees about the importance of a diagnosis of monochorionicity, as well as understand the risks and complications unique to these pregnancies.

11:00 AM–11:20 AM  
**Complications of Monochorionicity: Selective Intrauterine Growth Restriction**  
Ruben Quintero, MD

11:20 AM–11:40 AM  
**Cardiovascular Development and Congenital Heart Disease in Monochorionicity Multiples**  
Anita Moon-Grady, MD
11:40 AM–12:00 PM
They’re Not Twin-Twin Transfusion Syndrome, but They’re still a Problem: Twin Anemia-Polycythemia Sequence and Twin Reversed Arterial Perfusion Sequence
Russell Miller, MD

12:00 PM–12:20 PM
Twin-Twin Transfusion Syndrome
Anne-Maude Morency, MD

12:20 PM–12:30 PM
Question and Answer

Early Pregnancy: Pregnancy of Unknown Location and Ectopic
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Grand Ballroom West
Moderator: Peter Doubilet, MD, PhD
This session will review diagnostic criteria of early pregnancy failure and pregnancy of uncertain viability, pregnancies of unknown location, and ectopic pregnancy, including 3-dimensional ultrasound.

11:00 AM–11:30 AM
Early Pregnancy: Miscarriage
Carol Benson, MD

11:30 AM–12:00 PM
Cesarean Scar Pregnancy
Ilan Timor-Tritsch, MD

12:00 PM–12:30 PM
Ectopic Pregnancy
Peter Doubilet, MD, PhD

Spectrum of Care and Evaluation of Chronic Venous Insufficiency
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Beekman
Moderator: George Berdej, BA, RVT
At the completion of this session, participants will be able to perform a directed physical examination of the patient with chronic venous insufficiency (CVI) and understand and predict the common patterns of venous reflux; outline the anatomy and learn the recently new terminology of the superficial and deep venous systems of the abdomen, pelvis, and lower extremities; perform a detailed and relevant preoperative ultrasound evaluation in the patient with CVI; render a final report the findings of the ultrasound evaluation; describe treatment options; and use the ultrasound findings to determine and execute therapy and follow the patient after therapy.

11:00 AM–11:45 AM
Mapping Venous Insufficiency: What the Interventionalist Needs to Know
George Berdej, BA, RVT

11:45 AM–12:30 PM
Endovascular Therapies for Chronic Venous Insufficiency
Roy Fujitani, MD, RVT

Tricks and Physics: How to Improve Your Imaging of the Fetal Heart
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Sutton North
Moderator: Wesley Lee, MD
This session will address the current role of ultrasound in detailed fetal heart assessment. On completion of this session, participants should be able to: (1) differentiate between operator, patient, and platform issues with image optimization; (2) describe differences in necessary settings for grayscale and Doppler (including color) used to assess the heart versus those used in general obstetric scanning; and (3) optimize 3- and 4-dimensional settings for the fetal heart.

11:00 AM–11:30 AM
How to Improve Grayscale Images for Cardiac Examination
Alfred Abuhamad, MD

11:30 AM–12:00 PM
How to Improve Doppler Images for Cardiac Examination
Wesley Lee, MD

12:00 PM–12:30 PM
How to Improve 3- and 4-Dimensional Images of the Heart
Lami Yeo, MD

11:00 AM–11:30 AM
Scientific Sessions
Learn about the latest research in ultrasound in concise oral presentations. *Presenter.

Basic Science: Tissue Characterization
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Concourse A
Moderator: Katherine Nightingale, MD
11:00 AM–11:30 AM
Luminary Speaker: Katherine Nightingale, MD

12:11 PM–12:18 PM
2385711 Value of Contrast-Enhanced Ultrasonography in Confident Diagnosis of Ovarian Torsion: Initial Experience
Shenaz Momin,* Asif Momin

12:18 PM–12:25 PM
2385754 Value of Ultrasound Contrast Agents in the Diagnosis of Endoleaks in Patients With Abdominal Aortic Aneurysms Treated With Stent Graft Implantations
Anna Drelich-Zbroja,* Tomasz Jargiello, Michal Sojka, Małgorzata Szczersko-Trojanowska

General, Abdominal, and Interventional-Intraoperative Ultrasound
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Sutton South
Moderator: Nirvikar Dahiya, MD

11:00 AM–11:07 AM
2351545 Ultrasound of Human Papillomavirus Cancers in the Base of the Tongue and Tonsils
M. Robert De Jong,* Carole Fakhry, Stephanie Coquia, Marianna Holman, Ulrike Hamper

11:07 AM–11:14 AM
2376078 Sonographic Appearance of Topical Hemostatic Agents With Computed Tomographic and Magnetic Resonance Imaging Correlation and Long-term Follow-up
Brett Walker,* Howard Heller, Cheryl Sadow, Mary Frates

11:14 AM–11:21 AM
2380816 Gallstone Prevalence in the Ngobe Population
Leigh Goodrich,* Michael Butler, Logan Woodhouse, Jillian Gottlieb, Roxanne Talamayan-Pascua, Nicole Salame, Ivy Ewald, Marie-Claire Matsuo, Anna-Marie Hosking, Alyssa Velasco

11:21 AM–11:28 AM
2381102 What’s All the Noise About? Detecting Post-Transplant Hepatic Vein Stenosis With Doppler Ultrasound Versus Venography
Sara Piett,* David Valenzuela, Nicholas Fidelman, Andrew Taylor, Kanti Kolli, Evan Lehman, Jeanne Laberge, Robert Kerlan, Vickie Feldstein, Maureen Kohl

11:28 AM–11:35 AM
2384546 Evaluation of Gastric Accommodation: Comparison of 3-Dimensional Ultrasound and Magnetic Resonance Imaging of Gastric Volumes
Wijnand Buisman
**SUNDAY MARCH 20TH**

**11:35 AM–11:42 PM**  
**2385053** Characterization of Renal Angiomyolipomas by Quantitative Sonography  
Anil Chauhan,* Laith Sultan, Peiman Habibollahi, Chandra Sehgal

**11:42 PM–11:49 PM**  
**2384147** Value of Contrast-Enhanced Ultrasound-Guided Percutaneous Biopsy in Anterior Mediastinum Lesions  
Yi Dong,* Wen-Ping Wang, Feng Mao, Zheng-Biao Ji

**11:49 PM–11:56 PM**  
**2379078** Ex Vivo Ultrasound Margin Assessment in Basal Cell Carcinoma: Initial Experience in 30 Cases  
Fernando Alfageme,* Eugenio Cerezo, Lola Suarez, Irene Salguero, Rita Cabeza, Gaston Roustan

**11:56 PM–12:03 PM**  
**2345160** Study of Ultrasound-Guided Needle Aspiration and Catheter Drainage in the Management of Liver Abscesses  
Rohit Bhoil,* Mukesh Surya, Y. Sharma

**12:03 PM–12:30 PM**  
**Question and Answer**

**New Investigator Session**

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.  
Mercury Ballroom  
Moderator: Phyllis Glanc, MDCM, BSc, FRCPR, Chandra Sehgal, PhD

**11:00 AM–11:07 AM**  
**2380297** Structure Function for Quantitative Ultrasound Tissue Characterization  
Aiguo Han,* William O’Brien Jr

**11:07 AM–11:14 AM**  
**2380144** Revisiting Cardiac Chamber Discrepancy in the Prenatal Diagnosis of Coarctation of the Aorta  
Suguna Ganesan,* Darren Hutchinson, Bryn Jones, Nicole Woodrow

**11:14 AM–11:21 AM**  
**2385462** High-Frequency Photoacoustic Characterization of Ex Vivo Lymph Nodes of Colorectal Cancer Patients  
Emi Saegusa-Beecroft,* Ashwin Sampathkumar, Jonathan Mamou, Junji Machi, Ernest Feleppa

**11:21 AM–11:28 AM**  
**2388520** A Novel Semiautomated Fractional Limb Volume Tool for Rapid and Reproducible Fetal Soft Tissue Assessment  
Lauren Mack,* Sung Yoon Kim, Sungmin Lee, Haleh Sangi-Haghpeykar, Wesley Lee

**11:28 AM–11:35 AM**  
**2380297** Structure Function for Quantitative Ultrasound Tissue Characterization  
Aiguo Han,* William O’Brien Jr

**11:35 AM–11:42 AM**  
**2379335** Uterocervical Angle: A Novel Ultrasound Marker to Predict Spontaneous Preterm Birth  
Margaret Dziadosz,* Terri-Ann Bennett, Cara Dolin, Annie Honart, Sarah Lee, Sarah Pivo, Ashley Roman

**11:42 AM–11:49 AM**  
**2377746** Uterocervical Angle Measurement Improves Prediction of Cerclage Failure  
Jordan Knight,* Jessica Sheng, Frank Schubert, Avinash Patil

**11:49 AM–11:56 AM**  
**2382415** Comb-Push Shear Elastography on a Clinical Ultrasound Machine: First Report on Differentiation of Breast Masses  
Mahdi Bayat,* Max Denis, Adriana Gregory, Mohammad Mehrmohammadi, Duane Meixner, Robert Fazio, Mostafa Fatemi, Azra Alizad

**11:56 AM–12:03 PM**  
**2347629** Effect of Fabrication Methods on the Acoustic Properties of Encapsulated Oxygen Micobubbles  
Rawan Shraim,* Margaret Wheatley, Patrick O’Kane, Flemming Forsberg, John Eisenbrey

**12:03 PM–12:10 PM**  
**2384956** Comparison of 3-Dimensional Strain Volume Reconstructions Using Sheaf of Ultrasound Planes and Wobbler-Based Acquisitions  
Wenjun Yang,* Atul Ingle, Tomy Varghese

**12:10 PM–12:17 PM**  
**2381525** Monitoring Microwave Ablation Treatments for Hepatocellular Carcinoma Using Electrode Displacement Ultrasound Elastography  
Wenjun Yang,* Marc Alexander, Kelly Wergin, Nicholas Rubert, Atul Ingle, Meghan Lubner, Timothy Zielmelewicz, James Hinshaw, Shane Wells, Fred Lee Jr, James Zagzebski, Tomy Varghese

**12:17 PM–12:24 PM**  
**2383721** Effect of Percutaneous Ultrasound-Guided Subacromial Bursography With Microbubbles for Assessment of Rotator Cuff Tears  
Xueqing Cheng
12:24 PM–12:30 PM
2384897 Recipient Umbilical Artery Elongation in Twin-Twin Transfusion Syndrome (TTTS)
Roopali Donepudi,* Lovepreet Mann, Christoph Wohlmuth, Kenneth Moise, Saul Snowden, Yisel Morales, Anthony Johnson, Michael Bebbington, Helena Gardiner, Ramesha Papanna

Obstetric Ultrasound: New Techniques
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Nassau
Moderator: Jude Crino, MD

Measuring Cells, Proteins, and Ions With Photoacoustic Ultrasound; Smart Contrast Agents for In Vivo Imaging
Jesse Jokerst, PhD Imaging

1:30 PM–3:30 PM
Special Interest Sessions

Advances in Photoacoustic Imaging
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Concourse G
Moderators: Jesse Jokerst, PhD, Terri Swanson, MA
Participants will learn about cutting-edge science in photoacoustic imaging, including preclinical studies and translational end points.

1:30 PM - 2:00 PM
Measuring Cells, Proteins, and Ions With Photoacoustic Ultrasound; Smart Contrast Agents for In Vivo Imaging
Jesse Jokerst, PhD

2:00 PM–2:30 PM
Clinical Opportunities for Photoacoustic Ultrasonic Imaging
Richard Bouchard, PhD

2:30 PM–3:00 PM
New Biomarkers in Photoacoustic Imaging
John Eisenbrey, MD

3:00 PM–3:30 PM
Photoacoustic Imaging in Head and Neck Oncology
Mukund Seshadri, DDS, PhD

Double Jeopardy: An Audience Participation Imaging Game
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Grand Ballroom East
Moderator: Phyllis Glanc, MD
Creative teaching techniques engage students, stimulate participation, and sustain their interest. Since ultrasound is a visually driven specialty, supplemental learning via an interactive session with audience participation enhances the academic environment. This session will be a question-and-answer session based on a quiz show format, using diagnostic images of obstetric complications or abnormalities. Immediate response/feedback allows participants to gauge their competence relative to other participants and identify areas for improvement.

1:30 PM–3:30 PM
Obstetric and Gynecologic Jeopardy and Challenging and Life-Threatening Situations
Ivan Diamond, MD, Phyllis Glanc, MDCM, BSc, FRCPC, Joan Mastrobattista, MD
Elastographic Imaging Application and Uses: Part 2
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Sutton Center
Moderator: Richard Barr, MD, PhD
This session will provide an update on state-of-the-art elastography. The emphasis will be on techniques already shown to be of clinical value.

1:30 PM–1:40 PM
Introduction

1:40 PM–2:25 PM
Thyroid Elastography Update
Manjiri Dighe, MD

2:35 PM–3:20 PM
Prostate Biopsy Update
Richard Barr, MD, PhD

Hands-on How to Do the Biopsy: From Simple to Sophisticated
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Rendezvous Trianon
Moderator: Dean Nakamoto, MD
Faculty: Nami Azar, MD, Devang Butani, MD, Wui Chong, MD, Stephanie Coquia, MD, Vikram Dogra, MD, Ghazle Hamad, MD, Gowthaman Gunabushanam, MBBS, Ulrike Hamper, MD, Andrej Lyshchik, MD, PhD, Dean Nakamoto, MD, Erik Paulson, MD, Margarita Rezvin, MD, Michelle Robbin, MD, MS, Joaquin Santolaya, MD, PhD
This session will teach individuals across all disciplines how to set up procedures and perform biopsies, also incorporating new technologies in biopsy guidance.

1:30 PM–1:45 PM
Introduction to Procedures
Devang Butani, MD

1:45 PM–2:00 PM
Tips and Tricks for Ultrasound-Guided Procedures
Gowthaman Gunabushanam, MBBS

Journal Club: Recently Published Articles That Have Shaped the Practice of General and Abdominopelvic Ultrasound
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Sutton South
Moderator: Mark Lockhart, MD, MPH
Faculty: Sanjeev Bajaj, MD, Corinne Deurdulian, MD
This session will involve a brief summary of recently published journal articles (approximately 4 or 5) on “hot” topics by invited speakers with subsequent audience discussion/questions. The speakers will prepare brief summaries of hot topics of their choice and lead an audience discussion and question-and-answer period for 30 minutes. At the conclusion of this activity, participants should be able to evaluate results and conclusions presented in recently published journal articles on hot topics.

SAMs Pediatric Oncologic Ultrasound: Liver, Renal, and Retroperitoneal Tumors
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits, and SAMs Credits.

Sutton North
Moderator: Leann Linam, MD
After this session, participants should be able to identify the sonographic appearance of common pediatric tumors involving the liver, kidneys, and retroperitoneum.

1:30 PM–2:10 PM
Pediatric Liver Tumors
Harriet Paltiel, MD

2:10 PM–2:50 PM
Pediatric Renal Tumors
Geetika Khanna, MD, MS

2:50 PM–3:30 PM
Pediatric Retroperitoneal Tumors
Carlos Sivit, MD
Sonographic Evaluation of Acute Musculoskeletal Complaints

Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Trianon

Moderator: Srikar Adhikari, MD, MS

The objectives of this session are: (1) to review sonographic findings associated with acute musculoskeletal conditions, including fractures, dislocations, joint effusions, ligament pathology, tendon injuries, and tenosynovitis; (2) to discuss sonography of inguinal hernias and popliteal cysts; (3) to review ultrasound-guided interventional techniques; and (4) to discuss limitations of ultrasound in musculoskeletal evaluations. After this session, participants should be able to integrate ultrasound in the assessment of musculoskeletal symptoms in acute care settings and perform musculoskeletal ultrasound-guided procedures.

1:30 pm–2:10 pm
Hernias, Joint Effusions, Bursitis, and Cysts
Levon Nazarian, MD

2:10 pm–2:50 pm
Acute Care Musculoskeletal Ultrasound
Romolo Gaspari, MSc, MD, PhD

2:50 pm–3:30 pm
Musculoskeletal Ultrasound: Techniques, Pearls, and Pitfalls
Randy Moore, DC, RDMS, RMSK

Transcranial Doppler Application and Interpretation in Brain Injury and Disease

Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.

Beekman

Moderator: Charles Tegeler IV, MD

This session will provide techniques using transcranial Doppler ultrasound in cerebrovascular diseases, with special emphasis on neurovascular ultrasound in adult patients with sleep complications.

1:30 pm–2:10 pm
Sleep and Cerebrovascular Disease: Role of Neurosonology
Tatjana Rundek, MD, PhD

2:10 pm–2:50 pm
Transcranial Doppler Ultrasound: Adult Basic and Advances
Tatjana Rundek, MD, PhD

2:50 pm–3:30 pm
Transcranial Color Doppler Ultrasound in Neurologic Disorders Using Contrast Agents
Eva Bartels, MD, PhD

4:00 pm–5:30 pm
Special Interest Sessions

UGRA Hands-on Knee and Ankle Ultrasound, Including Regional Peripheral Nerves (Sold out)

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Rendezvous Trianon

Moderators: Daniel Siegal, MD, Alberto Simoncini, MD

Faculty: Ron Adler, MD, PhD, Joseph Craig, MB, ChB, Nicholas Nacey, MD, Jennifer Pierce, MD, Humberto Rosas, MD, Daniel Siegal, MD, Alberto Simoncini, MD, Corrie Yablon, MD, Andrew Zbojniec, MD

At the completion of this session, participants will have gained hands-on experience in scanning the knee and ankle, including the regional peripheral nerves.
**SUNDAY MARCH 20TH**

**Point-of-Care Ultrasound: Recent Advances in Research and Technology**
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Sutton South*

*Moderator: Andrew Liteplo, MD*

The objectives of this session are: (1) to review the top 10 point-of-care ultrasound articles of 2015 in a point-counterpoint format; (2) to summarize social media point-of-care ultrasound updates and controversies and cutting-edge knowledge on tap; and (3) to discuss the most recent point-of-care ultrasound technology, including the handheld portable ultrasound devices, and smartphone ultrasound devices and their impact on patient care, work flow, training, and education.

4:00 PM—4:30 PM
**Pearls From the Recent Point-of-Care Ultrasound Literature**
*Turan Saul, MD*

4:30 PM—5:00 PM
**Pearls From the Recent Point-of-Care Ultrasound Literature**
*Andrew Liteplo, MD*

5:00 PM—5:30 PM
**Recent Advances in Point-of-Care Ultrasound Technology**
*Lori Stolz, MD*

---

**Unknown Cases Film Panel**
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Beekman*

*Moderators: Vikram Dogra, MD, Salvatore LaRusso, MEd, RDMS, RT(R) Marjorie Stein, MD*

The objective of this session is to challenge the participants with unknown cases. at the conclusion of this activity, participants should be able to analyze an unusual, interesting case and describe findings.

SUNDAY

4:00 PM—5:30 PM
**Scientific Sessions**
Learn about the latest research in ultrasound in concise oral presentations. *Presenter.*

### Elastography
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Sutton Center*

*Moderator: Shigao Chen, PhD*

4:00 PM—4:07 PM
**2385532 Shear Wave Elastography for Liver Fibrosis Staging: Validating Cutoff Values for ≥F2 Fibrosis**
*Manish Dhyani,* Joseph Grajo, Changtian Li, Atul Bhan, Raymond Chung, Anthony Samir

4:07 PM—4:14 PM
**2376985 Performance of 2-Dimensional Ultrasound Shear Wave Elastography in Liver Fibrosis Detection Using Magnetic Resonance Elastography as the Reference Standard: A Pilot Study**
*Pengfei Song,* Daniel Mellema, Shannon Sheedy, Duane Meixner, Ryan Karshen, Matthew Urban, Armando Manduca, William Sanchez, Matthew Callstrom, James Greenleaf, Shigao Chen

4:14 PM—4:21 PM
**2379753 Pediatric Cardiac Shear Wave Elastography: A Pilot Study on Healthy Controls**
*Pengfei Song,* Xiaojun Bi, Daniel Mellema, Armando Manduca, Matthew Urban, Patricia Pellikka, Shigao Chen, James Greenleaf

4:21 PM—4:28 PM
**2369615 Correlation of Cognitive Function With Strain Indices for Assessing Carotid Plaque Instability**
*Nirvedh Meshram,* Xia Wang, Daren Jackson, Carol Mitchell, Tomy Varghese, Stephanie Wilbrand, Bruce Hermann, Robert Dempsey

4:28 PM—4:35 PM
**2381340 Strain-Based Vascular Biomarkers for Classification of Patients With Cognitive Impairment**
*Xiao Wang, Daren Jackson, Carol Mitchell, Tomy Varghese,* Stephanie Wilbrand, Brandon Rocque, Bruce Hermann, Robert Dempsey

4:35 PM—4:42 PM
**2383351 Effect of Various Technical and Patient-Related Factors on the Success Rate of Acoustic Radiation Force Impulse Elastography in Patients With Morbid Obesity**
*Anil Chauhan,* Chandra Sehgal, Kristoffel Dumon, Noel Williams, Andy Milkowski, Christopher Neylan
36. Limitations and Artifacts in the Use of Shear Wave Elastography in the Liver
Matthew Bruce,* Giovanna Ferraioli, Orpheus Kolokythas, Dighe Manjiri

37. Shear Wave Elastography of the Liver: The Optimal Minimum Measurement Number for Different Fibrosis Stages—A Prospective Study
Qian Li,* Manish Dhyani, Anthony Samir

42. Identifying Clinically Significant Prostate Cancers Using 3-Dimensional In Vivo Acoustic Radiation Force Impulse Imaging With Whole-Mount Histologic Validation
Mark Palmeri, Tyler Glass, Zachary Miller, Stephen Rosenzweig, Andrew Buck, Thomas Polascik, Rajan Gupta, Alison Brown, John Madden, Kathryn Nightingale*

47. Comparison of the Accuracy of Prostate Biopsy Guided by Grayscale Ultrasound and Real-time Elastography in Patients Selected by Different Methods of Assessing Prostate-Specific Antigen in the Diagnosis of Prostate Cancer
Claudia Silva,* David Shigueoka, Sergio Ajzen

52. The Value of Shear Wave Elastography to Differentiate Benign From Malignant Thyroid Nodules
Lucy Kerr,* David Torrico

Gynecologic Ultrasound

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Nassau
Moderator: Arthur Fleischer, MD

40. Real-time Transvaginal Ultrasound Observation of Fallopian Tube Peristalsis in Patients With Acute Pelvic Inflammatory Disease
Ronald Wachsberg

29. Transperineal Ultrasound Observation of Fallopian Tube Peristalsis in Patients With Acute Pelvic Inflammatory Disease
Susan Ramin,* Francisco Orejuela, Wesley Lee, Rajshi Gandhi, Lauren Mack, Hans Dietz

34. Correlation Between Transperineal Ultrasound and Urodynamic Findings in Patients With Lower Urinary Tract Symptoms After Midurethral Sling Placement
Peter Takacs,* Kindra Larson, Lauren Scott, Tina Cunningham, Alfred Abuhamad

39. Emergency Department Utilization of Pelvic Ultrasound and Computed Tomographic Studies in Women Presenting With Lower Abdominal or Pelvic Pain
Natalie Adams,* Dale Stovall, Virginia Stewart

34. HDlive Flow With HDlive Silhouette Mode for Diagnosis of Uterine Disorders
Kenta Yamamoto,* Mohamed AboEllail, Tamaki Tanaka, Masato Mashima, Emiko Nitta, Kenji Kanenishi, Toshiyuki Hata

41. Surgical Correction of Uterine Subseptations Reestablishes Standard Uterine Cavity Measurements
Laura Detti,* Mary Christiansen

40. A Tale of Two Hospitals
Ixora Atan, Jessica Hall, Susanne Langer, Ka Shek, Hans Dietz*

41. Does Patient Posture Affect Sonographic Evaluation of Pelvic Organ Prolapse?
Meirav Braverman, Friyan Turel, Talia Friedman, Ixora Atan, Hans Dietz*

40. Translabial Ultrasound for the Assessment of Pelvic Floor Injury in Women Who Used a Novel Semiautomated Pelvic Floor Dilator During Active Labor
Susan Ramin,* Francisco Orejuela, Wesley Lee, Rajshi Gandhi, Lauren Mack, Hans Dietz

5. Heterotopic Pregnancy: Case Series and Review of the Literature
Usha Verma, Juliana Martins*
SUNDAY MARCH 20TH

High-Frequency and Contrast-Enhanced Ultrasound
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Concourse G
Moderator: Jonathan Mamou, PhD

4:00 PM—4:30 PM
Luminary Speaker: Michael Kolios, PhD

4:30 PM—4:40 PM
2380525 Acoustic Impedance of Bowman’s Layer as a Possible Indication of Keratoconus
Raksha Urs,* Timothy Archer, Dan Reinstein, Ronald Silverman

4:40 PM—4:50 PM
2384224 Twenty-Megahertz Coherent Compound Plane Wave Imaging of the Eye
Ronald Silverman,* Raksha Urs, Daniel Gross, Jeffrey Ketterling

4:50 PM—5:00 PM
2385414 Handheld Real-time 20-MHz Ophthalmic Imaging With an Annular Array
Jeffrey Ketterling,* Daniel Gross, Jonathan Mamou, Kathleen Smith, Quan Hoang, Ronald Silverman

5:00 PM—5:10 PM
2385719 Molecular Imaging With Dual-Targeted Microbubbles for Characterization of Sentinel Lymph Nodes
Kartikeya Puranik,* Maria Stanczak, Flemming Forsberg, Ji-Bin Liu, John Eisenbrey, Andrej Lyshchik

5:10 PM—5:20 PM
2381914 Effect of Pulse Shaping on Subharmonic-Aided Pressure Estimation
Ipshita Gupta,* John Eisenbrey, Maria Stanczak, Anush Sridharan, Jaydev Dave, Ji-Bin Liu, Christopher Hazard, Xinghua Wang, Ping Wang, Huiwen Li, Kirk Wallace, Flemming Forsberg

5:20 PM—5:30 PM
Question and Answer

Pediatric Ultrasound and Neurosonology
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

Introduction

4:10 PM—4:20 PM
2367190 Validation of a Low-Cost Optic Nerve Sheath Phantom: An Educational Tool
David Murphy,* Stephanie Obertoell, Andrew French, Stacy Trent, David Richards

4:20 PM—4:30 PM
2384790 Fetal Intracranial Magnetic Resonance Imaging in Complicated Monochorionic Multiple Gestations Undergoing In Utero Therapy
Sherelle Laiser-Narin,* Russell Miller, Lynn Simpson

4:30 PM—4:40 PM
2373783 Sonographic Detection of Accessory Adrenal Tissue in Neonates
Daniel Mordechay,* Aviva Ben-Shlush, Lisa Raviv-Zilka, Jeffrey Jacobson, Michelle Soudack

4:40 PM—4:50 PM
The Hair Follicle Sign: An Ultrasound Finding to Help Make the Diagnosis of Pilomatricomas in Children
Anand Majmudar,* Louis Parvey, Harris L. Cohen

4:50 PM—5:00 PM
2384900 Accuracy of Point-of-Care Lung Ultrasound for Diagnosis of Acute Chest Syndrome in Pediatric Patients With Sickle Cell Disease and Fever
Dina Daswani,* Vaishali Shah, Jeffrey Avner, Deepa Manwani, Jessica Kurian, Joni Rabiner

5:00 PM—5:10 PM
2385835 Likelihood of Thyroid Cancer in Children
Hope Peters,* Danielle Richman, Stephen Huang, Peter Doubilet, Carol Benson, Mary Frates

5:10 PM—5:30 PM
Question and Answer

4:00 PM—5:30 PM
Obstetric Ultrasound Community Meeting
Trianon
Monday, March 21, 2016

Day at a Glance

6:30 AM–3:30 PM  Convention Registration Open
7:00 AM–8:00 AM  Special Interest Sessions
8:15 AM–11:00 AM  Board of Governors Meeting
8:15 AM–10:15 AM  Special Interest Sessions
9:30 AM–1:30 PM  Exhibit Hall Open
10:15 AM–11:00 AM  High-Frequency Clinical and Preclinical Imaging Community Meeting
11:00 AM–12:30 PM  Special Interest Sessions
Scientific Sessions
12:30 PM–1:30 PM  Lunch in the Exhibit Hall (Americas Hall II)
1:30 PM–3:30 PM  Special Interest Sessions
MONDAY MARCH 21ST

7:00 AM – 8:00 AM
Special Interest Sessions

Assessment of the Fetus at Risk for Cardiac Decompensation: When to Worry, What to Do About it
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Sutton North
Moderator: Lynn Simpson, BSc, MSc, MD
This session is designed to review the diagnoses of fetal arrhythmias, complications of monochorionic twins, and major cardiac lesions that require serial evaluation. Recommendations for the type and timing of fetal surveillance will be presented, as well as management options when cardiac decompensation is detected.

7:00 AM–7:20 AM
Arrhythmias
Christopher Lindblade, MD

7:20 AM–7:40 AM
Twin Anemia-Polycythemia Sequence
Lynn Simpson, BSc, MSc, MD

7:40 AM–8:00 AM
Congenital Heart Disease at Risk of Deterioration
Mary Donofrio, MD

Fetal Neurosonography: Evaluation of Structural Brain Development and Malformations
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Grand Ballroom East
Moderator: Ants Toi, MD
Fetal central nervous system development is progressive throughout gestation. At the time of a typical midtrimester anatomic survey, visualization is often limited to major structures and is performed transabdominally only. Many intracranial malformations are only evident later in gestation and are best seen with alternate modalities such as endovaginal and volume-based imaging. The session will aim to demonstrate the progressive development of the central nervous system and how dedicated neurosonography using all imaging modalities can improve the detection of many significant but subtle structural abnormalities.

Just Images: Abdominal Aorta
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Beekman
Moderator: Margarita Revzin, MD
The objective of this session is to describe the role of ultrasound in the evaluation of abdominal vascular pathology.

7:00 AM–7:30 AM
Caring for a Patient With an Abdominal Aortic Aneurysm
Anil Hingorani, MD

7:30 AM–8:00 AM
Ultrasound Evaluation of the Aorta and Abdominal Branches
Mary Frates, MD

Knobology and the Basics of Gynecologic Ultrasound
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Grand Ballroom West
Moderator: Ilan Timor-Tritsch, MD
This session will provide comprehensive instructions on knobology and the basics of gynecologic ultrasound.

7:00 AM–7:25 AM
Knobology
Ilan Timor-Tritsch, MD

7:25 AM–7:50 AM
The Basics of Scanning the Pelvis in Gynecology
Ana Monteagudo, MD, RDMS

7:50 AM–8:00 AM
Questions and Answers

UGRA Rheumatologic Applications in Ultrasound
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Regent
Moderator: Levon Nazarian, MD
At the completion of this session, participants will know when and how to use musculoskeletal ultrasonography for inflammatory and microcrystalline rheumatologic diseases.

7:00 AM–7:20 AM
Ultrasound Screening Protocol for Synovitis
Daniel Siegal, MD

7:20 AM–7:40 AM
Clinical Considerations in Inflammatory Arthritides
Minna Kohler, MD
7:40 AM–8:00 AM
Ultrasound Techniques and Interventions in Microcrystalline Arthritisides
Levon Nazarian, MD

Sonography Teaching Master Class: Physician Experts Discuss How to Orchestrate Sonography Teaching for Physicians That Leads to Standing Ovations and Encores
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Sutton South
Moderator: Rob Goodman, MB, BChir
Faculty: Rob Goodman, MB, BChir, Bret Nelson, MD, RDMS, Antonio Riera, MD
After this session, participants should be able to recognize the importance of utilizing skills from all disciplines in sonography teaching, understand how simulation can augment a training program, and appreciate the necessity of a robust quality assurance/improvement program to maintain excellence.

Ultrasound Evaluation of Acute Abdominal and Pelvic Pain
Earn up to 1.0 AMA PRA Category 1 Credit™ (accepted by the ARDMS) or ARRT Category A Credit.
Trianon
Moderator: Jason Nomura, MD
This course will address the current role of ultrasonography in the diagnosis of patients with acute abdominal and pelvic pain. The differential diagnoses of patients with a variety of different presentations will be reviewed, as well as how diagnostic imaging can help accurately identify the etiology of patients’ symptoms. On completion of this course, participants should be able to select the appropriate imaging modality for a wide array of different pathologic conditions.

8:15 AM–10:15 AM
Special Interest Sessions

Cleaning Up Ultrasound Images
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Concourse A
Moderators: Jeremy Dahl, PhD, Kai Thomenius, PhD
Ultrasound image quality has the reputation of significant user dependence. Furthermore, there still remains a sizable fraction of patients for whom diagnostic-quality imaging is a challenge. The goal of this session is to review recent advances in the recognition and elimination of sources of image quality degradation.

8:15 AM–8:45 AM
Aberration Correction for Inhomogeneous Speed of Sound in Echo Sonography
Michael Jeager, PhD

8:45 AM–9:15 AM
Velocity Estimation Under Thermal Noise and Reverberation Clutter
Jeremy Dahl, PhD

9:15 AM–9:45 AM
B-Mode Image Recovery With Aperture Domain Model Image Reconstruction in the Presence of Reverberation and Phase Aberration
Brett Bryam, PhD

9:45 AM–10:15 AM
Processing the Data Twice: Minimum Variance as an Alternative to Geometry-Based Beam Forming
Sverre Holm, PhD

Emerging Concepts in Fetal Growth Assessment
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Grand Ballroom East
Moderator: Wesley Lee, MD
The objectives of this session are: (1) to review current algorithms and standards used to describe fetal growth based on clinical and ultrasound measures; (2) to discuss a stepwise approach in evaluation of fetal growth, both normal and abnormal; (3) to describe growth patterns in preterm and term infants; and (4) to discuss emerging methods of prescriptive growth, including the Intergrowth 21st Project and National Institute of Child Health and Human Development growth study and their pros and cons versus the use of traditional growth charts.
MONDAY MARCH 21ST

8:15 AM–8:55 AM
National Institute of Child Health and Human Development Fetal Growth Study: Fetal Growth Standards and Growth Trajectories Based on Race/Ethnicity
Katherine Grantz, MD

8:55 AM–9:35 AM
Intergrowth 21st: Monitoring Human Growth and Development From Conception to Infancy
Aris Papageorghiou, MD, FRCOG

9:35 AM–10:15 AM
Individualized Growth Assessment Program: A Novel Web-Based Software Solution
Wesley Lee, MD

Imaging With High-Frequency Ultrasound: Live Demonstration
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Rendezvous Trianon
Moderators: Meredith Chrisman, RDMS, Andrew Needles, BASc
The objective of this session is to learn about high-frequency ultrasound imaging principles in a live, hands-on environment with a commercial high-frequency system. On completion of this session, participants should be able to understand the differences between high- and low-frequency ultrasound and appropriate applications for high-frequency use.

8:15 AM–10:15 AM
Introduction to High-Frequency Ultrasound and Its Applications
Andrew Needles, BASc

In, Out, and About the Pediatric Spinal Canal
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Beekman
Moderator: Carol Barnewalt, MD
The objective of this session is to review cases of normal neonatal spine ultrasound and then present the most common disorders diagnosed by spine ultrasound imaging.

8:15 AM–8:55 AM
Spinal Canal: Inside/Outside the Fetus and Neonate
Dorothy Bulas, MD

8:55 AM–9:35 AM
Cases for Consideration
Carol Barnewalt, MD

9:35 AM–10:15 AM
Spinal Canal Technique: How, Why, and When
Carol Barnewalt, MD

New Horizons in Critical Care Ultrasound
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Trianon
Moderator: Christopher Moore, MD
At the completion of this session, participants should be able to discuss recent advances in the use of point-of-care sonography in the management of critically ill patients. These will include: (1) the use of transesophageal echocardiography; (2) thoracic sonography in the diagnosis and management of these patients; and (3) the use of sonography in the confirmation of proper endotracheal tube placement.

8:15 AM–8:55 AM
Practical Hemodynamic Assessment for Resuscitation
Christopher Moore, MD

8:55 AM–9:35 AM
Integrating Transesophageal Echocardiography Into the Practice of Critical Care
Marc Stone, MD

9:35 AM–10:15 AM
Assessing Volume Responsiveness
Alexander Levitov, MD

Reproductive Medicine and Infertility
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Grand Ballroom West
Moderator: Misty Blanchette Porter, MD, MS
This session will review diagnostic criteria for polycystic ovary syndrome and ultrasound in ovarian reserve, tubal patency/hysterosalpingo contrast sonography, Mullerian anomalies including 3-dimensional imaging, uterine fibroids, and polyps in the infertile patient.

8:15 AM–8:45 AM
Diagnostic Criteria for Polycystic Ovary Syndrome and Ovarian Reserve Evaluation
Misty Blanchette Porter, MD, MS

8:45 AM–9:15 AM
Intracavitary Lesions: Impact of Polyps and Fibroids on Fertility
Elizabeth Puscheck, MD, MS

9:15 AM–9:45 AM
Tubal Patency: The Evolving Role of Hysterosalpingo Contrast Sonography
James Shwayder, MD, JD

9:45 AM–10:15 AM
Diagnosis and Clinical Relevance of Congenital Uterine Abnormalities
Elizabeth Puscheck, MD, MS
Should You Change Your Current Practice of Hepatic Sonography?
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Sutton South**

**Moderator: Stephanie Wilson, MD, MS**

The objectives of this session are to help the radiologist understand what information the hepatologist needs from liver ultrasound, provide an overview of the role of elastography when evaluating the liver, and discuss surveying the liver with grayscale ultrasound and the role of contrast-enhanced ultrasound.

- **8:15 AM–8:55 AM**
  - What Hepatologists Want to Know From Liver Ultrasound
  - Yuko Kono, MD, PhD

- **8:55 AM–9:35 AM**
  - Hepatic Elastography: The Entire Picture
  - Giovanna Ferraioli, MD

- **9:35 AM–10:15 AM**
  - Expansion of Routine Hepatic Sonography: The Addition of Elastography, Surveillance Scanning for Hepatocellular Carcinoma, and Contrast-Enhanced Ultrasound
  - Stephanie Wilson, MD, MS

Wrong Diagnosis: Learning From Our Mistakes
Earn up to 2.0 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Sutton North**

**Moderator: Dolores Pretorius, MD**

Two years ago, we established a new tradition of analyzing “wrong diagnoses” from which we can all learn. Each year, we hear from different speakers about their own learning experience. The session format is designed to be interactive and range from basics to advanced topics, using ultrasound to develop a differential diagnosis, seeing the thought process through the eyes of the experts.

- **8:15 AM–8:55 AM**
  - Complex Cardiac Malformation
  - Gary Satou, MD

- **8:55 AM–9:40 AM**
  - Early Versus Late Diagnosis
  - Julia Solomon, MD, CM

- **9:40 AM–10:15 AM**
  - Potpourri: Veins, Arteries, and Other
  - Luís Gonçalves, MD

High-Frequency Clinical and Preclinical Community Imaging

**Petite Trianon**

**10:15 AM–11:00 AM**

**Applications of High-Frequency Ultrasound for Drug Development and Testing**

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

**Concourse G**

**Moderator: Jonathan Mamou, PhD**

This session will review the current use of high-frequency ultrasound imaging for the development, testing, and optimization of drugs.

- **11:00 AM–11:20 AM**
  - Noninvasive Micro-Ultrasound Imaging Furthered the Understanding of Anti–Vascular Endothelial Growth Factor Therapy Effects in Preclinical Tumor Models
  - Alexandra Eichten, PhD

- **11:20 AM–11:40 AM**
  - Tissue Characterization Parameters for Translation to Clinical Studies
  - Theresa Tuthill, PhD

- **11:40 AM–12:00 PM**
  - Vascular and Cardiac Ultrasound in Drug Development
  - Terri Swanson, MA

- **12:00 PM–12:20 PM**
  - Skin Deep: Ultrasound Investigations of Preclinical Models of Skin Disease
  - Sarah Ryan, BS

- **12:20 PM–12:30 PM**
  - Question and Answer
MONDAY MARCH 21ST

Challenging Pediatric Ultrasound Cases
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Sutton South
Moderator: Lynn Fordham, MD
Faculty: Harris L. Cohen, MD, Brian Coley, MD, Lynn Fordham, MD
The objectives of this session are to show interesting pediatric ultrasound cases as unknowns and allow the audience to guess the diagnoses.

Fetal Genitourinary Abnormalities
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Grand Ballroom East
Moderator: Jude Crino, MD
On completion of this session, participants should be able to describe the diagnosis and management of fetal genitourinary tract abnormalities.

11:00 AM–11:30 AM
Evaluation of the Fetal Urinary Tract
Anthony Odibo, MD

11:30 AM–12:00 PM
Evaluation of the Fetal Genitalia
Jude Crino, MD

12:00 PM–12:30 PM
Evaluation and Management of Fetal Lower Urinary Tract Obstruction
Rodrigo Ruano, MD, PhD

Just Images: Point-of-Care Ultrasound
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Trianon
Moderator: Bret Nelson, MD, RDMS
Faculty: Gerardo Chiricolo, MD, Matthew Fields, MD, Seth Koenig, MD, Bret Nelson, MD, RDMS
To describe the use ultrasound in point of care through images.

11:00 AM–12:30 PM
Scientific Sessions
Learn about the latest research in ultrasound in concise oral presentations. *Presenter.

Contrast-Enhanced Ultrasound
Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.
Concourse A
Moderator: Andrej Lyshchik, MD, PhD

11:00 AM–11:30 AM
Luminary Speaker: Paul Sidhu, BSc, MBBS, MRCP, FRCC

11:30 AM–11:37 AM
2388516 Quantitative Assessment of Tumor Perfusion During Sonoporation: Predicting Drug Uptake in Tumors
Shashank Sirsi

11:37 AM–11:44 AM
2376902 A Novel Contrast-Enhanced Ultrasound Classification System for Solid and Cystic Renal Masses
Jessica Zarzour,* Janelle West, Eric Turner, Bradford Jackson, Mark Lockhart, Michelle Robbin

11:44 AM–11:51 AM
2360546 Two- and Three-Dimensional Contrast-Enhanced Ultrasound Monitoring of Renal Cell Carcinoma Recurrence After Cryoablation
John Eisenbrey,* Maria Stanczak, Andrej Lyshchik, Colette Shaw, Ji-Bin Liu, Costas Lallas, Edouard Trabulsi, Flemming Forsberg

11:51 AM–11:58 AM
2363296 Impact of Race on Contrast-Enhanced Transrectal Ultrasound for Prostate Cancer Detection
Ethan Halpern,* Flemming Forsberg, Leonard Gomella, Edouard Trabulsi

11:58 AM–12:05 PM
2363297 Optimal Combination of Contrast-Enhanced Targeted and Systematic Biopsy of the Prostate for Detection of High-Grade Prostate Cancer
Ethan Halpern,* Flemming Forsberg, Leonard Gomella, Edouard Trabulsi

12:05 PM–12:12 PM
2378454 Contrast-Enhanced Ultrasound for Differentiation of Small (≤2 cm) Liver Metastases and Hepatocellular Carcinomas: Qualitative and Quantitative Evaluations
Wen-Ping Wang, Yi Dong,* Feng Mao, Xiao-Long Zhang

12:12 PM–12:19 PM
2380533 Role of Contrast-Enhanced Ultrasound in Assessment of Inflammatory Activity in Patients With Crohn’s Disease
Wenjie Cheng,* Guangjian Liu
**Fetal Echocardiography**

Earn up to 1.5 AMA PRA Category 1 Credits™ (accepted by the ARDMS) or ARRT Category A Credits.

*Sutton North*

**Moderator:** Anita Moon-Grady, MD

11:00 AM–11:07 AM  
2362606  
**Fetal Myocardial Performance Index Can Predict Fetal Hypoxemia During Labor**  
*Alexis Gimovsky,* Dennis Wood, Stuart Weiner

11:07 AM–11:14 AM

E-posters allow authors to present their research using a monitor and computer. E-posters are located in the Exhibit Hall, Americas Hall II.

**E-Poster Viewing Hours**

**Americas Hall II**
- **Friday, March 18**: 11:30 AM–4:30 PM
- **Saturday, March 19**: 9:30 AM–4:30 PM
- **Sunday, March 20**: 9:30 AM–4:00 PM
- **Monday, March 21**: 9:30 AM–1:30 PM

**E-Poster Awards**

First-, second-, and third-prize awards, as well as honorable mentions, will be indicated by ribbon icons. Awards are based on scientific content and visual effects.

**Basic Science and Instrumentation**

- **2355937** Assessment of an Ultrasound System for Use in an Interventional MRI Suite  
  Zaiyang Long, Chi Ma, Joel Felmlee, David Woodrum, Nicholas Hangiandreou, Krzysztof Gorny
- **2363123** A Comparison of Different Hydrophones in High-Intensity Ultrasound Pressure Measurements  
  Yunbo Liu,* Keith Wear
- **2370045** Evaluation of UltriQ software for objective ultrasound image quality assessment  
  Zaiyang Long, Donald Tradup, Scott Stekel, Nicholas Hangiandreou
- **2373257** An improved Axial and Lateral Image Resolution in Nonlinear Superharmonic Ultrasound Imaging: A Comparative Study of Two Coded Excitation Methods  
  Narendra D. Londhe, Jasjit S. Suri
- **2377654** Pressure Pulse Distortion by Needle and Fiber Optic Hydrophones due to Diminished Low Frequency Response  
  Keith Wear, Yunbo Liu, Gerald R Harris
- **2379004** A Diffraction-Grating Transducer That Focuses  
  David Vilkomerson, Thomas A Chilipka, John W Bogan
- **2380003** The Influence of Dexmedetomidine on Ultrasound-induced Pulmonary Capillary Hemorrhage in Rats  
  Douglas Miller, Chunyan Dou, Zhihong Dong, Krishnan Raghavendran
- **2380280** Quantitative Assessment of Damage During Myocardial Cavitation Enabled Therapy: A Parametric Study in a Rodent Model  
  Yiying Zhu,* Douglas Miller, Chunyan Dou, Xiaofang Lu, Oliver Kripfgans
- **2381391** Focused Ultrasound Treatment of Multiple Sclerosis in a Rat Model  
  Anthony Podkowa, Rita Miller, Raymond Fish, Michael Oelze
- **2381561** Evaluation of Tradeoffs in Cardiac Strain Imaging using Joint Probability Density Distributions  
  Chi Ma, Tomy Varghese
- **2382998** Lessons Learned During a Clinical Implementation of DICOM Structured Reporting Across a Radiology Ultrasound Practice  
  Scott Stekel,* Samir Budimlic, Joel Wolery, Nicole Strissel, Jose Villarama, Shyamala Bhat, Janice Pascoe, Donald Tradup, Nicholas Charboneau, Jason Tjelta, Nicholas Hangiandreou
- **2384869** Superficial Breast Lesions: Does Ultrasound Need Some Better Adjustment to Be Able to Characterize?  
  Abdelmohsen Hussien
- **2385115** Real-time Simulation of Color and Spectral Waveform Doppler Ultrasound of the Carotid Artery  
  Robert Eugene Zierler, Daniel Leotta, Kurt Sansom, Alberto Aliseda, Mark Anderson, Florence Sheehan
- **2385119** Super-Resolution and Lateral Beam Patterns  
  Shujie Chen, Kevin Parker*
- **2385593** Different Methods of Ultrasound Training for Medical Students at Cerrahpasa School of Medicine  
  Vira Fomenko,* Ramin Rajai, Nicholas Taylor, Helene Nepomuceno, Soe Thein, Eric Dang, Joseph Zakaria, Michael Niechayev, Brittany Mitchell, J. Christian Fox
- **2385633** An Overview of Ultrasound Scanner Display Performance and Management Features  
  Donald Tradup,* Scott Stekel, Zaiyang Long, Nicholas Hangiandreou
Cardiovascular Ultrasound

2361936  High Fidelity Strain Ratio Computation Using Auto Frame Selection (AFS) and Assist Strain Ratio (ASR) Techniques in Ultrasound Elastography
Ravi Managuli, Koji Waki, Naoyuki Murayama, Kazutaka Okada

2369034  Effects of balloon dilation with varying inflation forces on artery injury guided by ultrasound.
Yu He, Chun xiang Jin, Hui Wang, Li Mei, Juan Juan Zheng

Sumit Kumar Banchhor, Narendra Londhe, Tadashi Araki, Nobutaka Ikeda, Petia Radeva, Luca Saba, Antonella Balestrieri, Andrew Nicolaides, Shoaib Shafique, John Laird, Jasjit Suri

2371990  Automated Coronary Calcium Volumes has Moderate Correlations with Expert’s Coronary Lumen, Coronary Vessel and CoronaryATHEROMA Volumes in Japanese Diabetic Patients: An Intravascular Ultrasound Study
Sumit Kumar Banchhor, Narendra Londhe, Tadashi Araki, Nobutaka Ikeda, Petia Radeva, Luca Saba, Antonella Balestrieri, Andrew Nicolaides, Shoaib Shafique, John Laird, Jasjit Suri

2373246  Coronary Artery Disease Risk Stratification in IVUS using a combination of PCA-based Dominant Feature Extraction and Machine Learning: A Link between Carotid and Coronary Atherosclerotic Plaques
Tadashi Araki, Nobutaka Ikeda, Devarshi Shukla, Narendra D. Londhe, Vimal Kumar Shrivastava, Sumit Kumar Banchhor, Luca Saba, Andrew Nicolaides, Shoaib Shafique, John Laird, Jasjit Suri

2373752  Utility of Superb Microvascular Imaging for Visualizing Lesions in the Portal Vein
Takaaki Sugihara,* Toshiaki Okamoto, Kenichi Miyoshi, Tomomitsu Matono, Masahiko Koda, Hajime Isomoto

2377135  Contrast-Enhanced Ultrasound: A Problem-Solving Tool in the Multimodality Evaluation of Hepatocellular Carcinoma
Eugenia Khorochkov,* Joel Mercer, Stefanie Lee

2378960  Contrast-Enhanced Ultrasound Liver Imaging Reporting and Data System for Diagnosis of Hepatocellular Carcinoma: Initial Proposal
Yuko Kono,* David Cosgrove, Christoph Dietrich, Hyun-Jung Jang, Tae Kyoung Kim, Andrej Lyschik, Fabio Piscaglia, Claude Sirlin, Juergen Willmann, Stephanie Wilson

2381853  Carotid Body Abnormalities: Analysis of a Series of Cases Found Incidentally During Carotid Ultrasound
Nathalie Garbani

2381928  Handheld Ultrasound Versus Chest Radiography in the Coronary Care Unit
Colin Phillips,* Warren Manning

2385402  Contrast-Enhanced Ultrasound Assessment of Skeletal Muscle Perfusion Before and After Left Ventricular Assist Device Implantation
Minakshi Mohanty, Sabha Gupta, Maria Stanczak, Ann Banks, Lauren Trinsey, Anush Sridharan, Gordon Reeves, Flemming Forsberg*

2385826  Pulsed Ultrasound Modulates the Depolarization of Cardiomyocytes in a Cell-Based Model
Andrew Kohut

Contrast-Enhanced Ultrasound

2374736  Utility of Superb Microvascular Imaging for Visualizing Lesions in the Portal Vein
Takaaki Sugihara,* Toshiaki Okamoto, Kenichi Miyoshi, Tomomitsu Matono, Masahiko Koda, Hajime Isomoto

2377323  Combination of Conventional Ultrasound and Contrast-Enhanced Ultrasound in Transjugular Intrahepatic Portosystemic Shunt Follow-up: An Effective Method
Jean Ayoub

2378960  Contrast-Enhanced Ultrasound Liver Imaging Reporting and Data System for Diagnosis of Hepatocellular Carcinoma: Initial Proposal
Yuko Kono,* David Cosgrove, Christoph Dietrich, Hyun-Jung Jang, Tae Kyoung Kim, Andrej Lyschik, Fabio Piscaglia, Claude Sirlin, Juergen Willmann, Stephanie Wilson

2385721  Efficacy of Contrast-Enhanced Ultrasonography to Evaluate Metastatic Cervical Lymph Nodes Before and After Chemoradiotherapy of Head and Neck Cancer Patients
Kiyoto Shiga, Shin-ichi Oikawa,* Daisuke Saitoh, Katsunori Katagiri

2385785  Efficacy of Contrast-Enhanced Ultrasonography Compared With Color Doppler Imaging in Metastatic Cervical Lymph Nodes of Head and Neck Cancer Patients
Kiyoto Shiga,* Daisuke Saitoh, Shin-ichi Oikawa, Katsunori Katagiri

www.aium.org ● 2016 AIUM Convention Program ● New York City
Elastography

Elastography

234835 Ultrasound shear wave elastography characterization of hepatic lesions at the time of percutaneous ultrasound guided biopsy. Robert Villani, Paul Dossous

2383331 Virtual Analysis of the Pancreas in Type 2 Diabetes by Ultrasound Acoustic Radiation Force Impulse Quantification Chunxiang Jin,* Yu He, Juanjuan Zheng, Hui Wang

2384549 Noninvasive Assessment of Liver Fibrosis Using Shear Wave Elasticography in Patients With Chronic Liver Disease Tamami Abe,* Hidekatsu Kuroda, Yasuhiro Takikawa

Emergency and Critical Care Ultrasound

Emergency and Critical Care Ultrasound

2326876 Prevention/Correction of Sonographer Pain/Injury Using Corrective Exercise/Stretching/Movement Techniques Doug Wuebben, Mark Roozen

2339822 The use of point of care ultrasonography for intravascular access during adult cardiac arrest. Melvyn Harris

2366290 A Proposed Milestone for Pediatric Emergency Medicine Point-of-Care Ultrasound Competency Delia Gold,* Jennifer Marin, Demetris Haritos, Melissa Skaugset, Jennifer Kline, Rachel Stanley, David Bahner

2369425 Ultrasound of Hepatic Infections: A Sonographic Pictorial Review Vijayanadh Ojili,* Neeraj Kaur, Arpit Nagar

236993 Can Pediatric Emergency Physicians Correctly Interpret Point-of-Care Scrotal Ultrasound Exams for the Presence of Testicular Torsion After a Brief Teaching Session? Meredith Lynne Hill-Ciesielski, Mark Favot, Lindsay Taylor

2371810 Operating Characteristics of Point-of-Care Ultrasound in Identifying Skin and Soft Tissue Abscesses in the Emergency Department Sathyaseelan Subramaniam,* Jacqueline Bober, Jennifer Chao, Shahriar Zehntbachi

2373506 PULSE: An Objective Programmatic Ultrasound Metric Tool Tyler Dschaak,* Creagh Boulger, Michael Prats, Sara Singhal, Melanie Kennedy, David Bahner

2373982 Suspected Small-Bowel Obstruction in the Emergency Department: Accuracy of Point-of-Care Ultrasound Mark Gonzales,* Barbara Stahlman, Brent Becker

2374957 Peripheral Venous Cannulation Skill Acquisition Using Commercial and Homemade Ultrasound Phantoms Dustin Morrow,* Julia Cupp, Patrick Hunt, Richard Hoppmann

2377342 The Hidden Territory of Transvaginal Ultrasound: A Window to Nongynecologic Pathology Krystal Buchanan,* Artur Velcni

2377788 Bedside Ultrasound Evaluation of Diaphragm Thickening Craig Fryman, Sahar Ahmad

2378430 Creating a Happy Home: Impact of Point-of-Care Ultrasound Services on Physician in-House Satisfaction Natwalee Kittisarapong, Adam Ash,* Christopher Raio

2378883 Comparison of Subxiphoid Versus Parasternal Long-Axis Views in Focused Assessment With Sonography for Trauma Examinations Tanya Bajaj,* Christopher Raio, Maya Lin, Mathew Nelson, Adam Ash

2380777 Implementation of a 4-Year Ultrasound Curriculum in a Medical School Jason Metford,* Sean Wilson, Shadi Lahham, Mohammed Subeh, J. Christian Fox
E-POSTERS

2380792 Effect of Prior Concussion on Sonographic Optic Nerve Sheath Diameter Measurement After Undergoing Transient Intracranial Pressure Change
Ivan Morales,* Kyle Friez, Richard Gordon, Matthew Lyon

2380891 Does Confirmation by Plain-Film Radiography Delay the Use of a Central Venous Catheter When Compared to Ultrasound?
Samer Assaf,* Sean Wilson, Chiem Alan, Shadi Lahham, Mohammed Subeh, Samantha Shwe, J. Christian Fox

2381023 A Survey Evaluation of Barriers to Provider Compliance With Point-of-Care Ultrasound Documentation
Sebastian Siadecki,* Gabriel Rose, Rachel Berkowitz, Turandot Saul

2381269 Ultrasound Confirmation of Gastric Tube Placement: A Novel Method
Vlad Radulescu,* Sahar Ahmad

2381993 Ultrasound to Improve Lumbar Puncture Success: A Randomized Controlled Study
Lori Ludeman, Priet Schmalbach,* Shadi Lahham, Mohammed Subeh, Sean Wilson, Sophia Spann, Jocelyn Chao, Diane Shin, Nadeem Albadawi, J. Christian Fox

2382969 Can Emergency Medicine Resident Sonographers Performing Bedside Tracheal Ultrasound Accurately Confirm Endotracheal Tube Placement During an Intubation?
Shadi Lahham, J. Christian Fox, Wynne Breed*

2383284 Lung Ultrasound in the Neurologically Deceased Donor
Daniel Lebovitz, Matthew Tabbut,* Samir Latifi, Lynn Dezelson, Robert Jones

2383343 A Readily Available, Inexpensive, and Reusable Simulation Model for Teaching Ultrasound-Guided Abscess Identification and Drainage
Julie Augenstein,* Hiromi Yoshida

2383982 Assessment of Proximal Arterial Spectral Doppler Signals in a Model for Acute Compartment Syndrome
Stefania Carmona,* Richard Gordon, Matthew Lyon

Christopher Raio,* Adam Ash, Tanya Bajaj, Natwalee Kittitasarapong, Robert Ellsperrmann, Brendon Stankard, Mathew Nelson, Veena Modayil

2384504 Social Media Use in Emergency Ultrasound Fellowship Education
Richard Amini, Janelle Wang, Srikar Adhikari

2384574 A Retrospective Analysis of Ultrasound Usage Rates at Cardiac Arrest Resuscitation Events at a New York Academic Hospital
Marc Delaney,* Sahar Ahmad

2384651 Use of Focused assessment with sonography for trauma (FAST) examination skills in the evaluation of medical patients
Parisa Javedani, Jeremy Oulton, Gregory Metzger, Srikar Adhikari

2384720 Is There a Difference in Radial Artery Localization by Medical Students Using Bedside Ultrasound When Compared to Pulse Palpation?
Rachel Berkowitz, Gabriel Rose,* Sebastian Siadecki, Turandot Saul

2384781 A Survey of the Importance of Emergency Ultrasound in Prospective Practice Settings Among Emergency Medicine Residents
Christopher Mendoza

2384882 Evaluation of Self-Guided Versus Traditional Ultrasound Education for Third-Year Medical Students
Margaret Lewis, Lindsey Jannach,* Celeste Colcord, Lisa Howley, Vivek Tayal

2384888 Retrospective Review of Ectopic Pregnancies Diagnosed by Emergency Department Point-of-Care Ultrasound
Orinthia King,* Tina Dulani, Maya Lin, Andrew Balk, Gerardo Chiricolo

2385058 Ultrasound Simulation for Small-Bone Fractures: The Chicken Drumstick Model
Youyou Duanmu,* Christine Lee, Michael Heller, Saadia Akhtar, Jacob Goertz, Nicole Kaban

2385059 Contrast Extravasation in Emergency Department Patients With Ultrasound-Guided Peripheral Intravenous Catheters
Jordan Rupp, Robinson Ferre,* Jeremy Boyd, Robert Turer, Wesley Self

2385080 Algorithm-Based Automated Inferior Vena Cava Diameter Tracking Correlates With Physician-Performed Measurements
Christopher Fung,* Barry Belmont, Nik Theyyunni, Ross Kessler, Robert Huang, Mohamad Tiba, Kevin Ward, Albert Shih

2385093 Acute Breast Complaint at Night: What the Emergency Radiologist Needs to Know
Abdelmohsen Hussien

2385096 Is It Time for Ultrasound Badges of Competency?
Creagh Boulger, Monica Mikkilineni,* Tyler Dschaak, Michael Prats, Sara Singhal, Melanie Kennedy, Sarah Greenberger, Sorabh khandelwal, Andrew King, David Bahner

Obstetric Ultrasound: Fetal Anomalies

2328198 Non-Immune Idiopathic Hydrops Fetalis (NIHF) Ultrasound and Clinical Correlates. James E Maher, Charles Burns, Carol Wainann Bejil, Natalia Schlabritz-Loutsevich, Randall Kelly

2350818 Antepartum Diagnosis of Skeletal Dysplasia Associated With a Novel Gene Mutation Robert O’Sullivan,* Gary Kleinman

2351310 Prenatal Diagnosis of Congenital Dacrocystocele Robert O’Sullivan,* Saki Onda, Gary Kleinman, Steven Laifer

2371388 Prenatal Microarray Analysis in Pregnancies Complicated by Advanced Maternal Age or Fetal Sonographic Anomalies in the Setting of a Normal Karyotype Anna Palatnik,* Sheetal Patel, Jeffrey Dungan, Andrea Rock, Nina Gotteiner

2373997 Can You Give Me a Hand? Diagnosing and Understanding the Clinical Significance of Fetal Hand Anomalies in Obstetric Ultrasound Thomas Gibson, Kathryn Snyder, Ryan Meek, Roya Sohaey, Karen Oh

2374874 Iniencephaly spectrum of ultrasound features. Alpana Joshi

2379256 Prenatal Diagnosis of Urinoma and a Dilated Azygous Vein James Maher,* Randall Kelly, Kathryn Hutton, Mamie Gao

2380386 Prenatal Ultrasound Findings of a Large Spontaneous Subdural Hematoma Daphne Landau,* Assem Abdel-Latif, Mark Souweidane, Natan Haratz

2384001 Evolution in Womb: Sonographic Pictorial Review of Common and Uncommon Congenital Fetal Anomalies Vijayanadh Ojili,* Neeraj Kaur, Arpit Nagar

2384730 A Case of Prenatal Diagnosis of Split-Hand/Foot Malformation and Long-Bone Deficiency Nickolas Teigen,* Barrie Suskin, Pe'er Dar

23850001 Fetal Micrognathia and Cleft Palate – A Plea for Three-Dimensional Evaluation of the Craniofacial Anatomy Michael Gembicki, David Hartge, Jan Weichert

2385008 Prenatal Diagnosis of Sacrococcygeal Fetus in Fetu: A Case Highlighting the Utility of Serial Ultrasound Jeffrey Denney,* Christy Stanley, Lou Ann Armstrong, Jayne Marshall, Bethany Settle, Chad Haldeman-Englert

2385912 Fetal Magnetic Resonance Imaging: A look into Its Utility in the Prenatal Diagnosis of Congenital Anomalies Danielle Tarte, Hemanth Veluswamy,* Lindsay Meyers, Akosua Sintim-Damoa, Jeffery Copeland

2387197 Do Antenatal Ultrasonographic Measurements of Omphalocoele Size Determine the Mode of Delivery? Clark Johnson,* Rachel Mazza, Janice Henderson, Robert Ehsani

2387962 Improving the Ultrasound Detection of Isolated Fetal Limb Abnormalities Maria Andrikopoulou, Sevan Vahanian, Martin Chavez, Jean Murphy, Nazeen Hanna, Anthony Vintzileos

2392809 Lung-to-head ratio, ultrasound liver-to-thoracic ratio and stomach position in fetuses with isolated left-sided CDH - proposal of multiple parameter sonographic evaluation Nicolas Sananes, Ingrid Britto, Oluyinka Olutoye, Darrell Cass, Christopher Cassady, Amy Mehollin-Ray, Haleh Sangi-Haghpeykar, Stephen Welty, Craciolo Fernandes, Michael Belfort, Rodrigo Ruano

Obstetric Ultrasound: Fetal Growth

2379342 Obstetrics vs Pediatrics How do Birthweight Percentiles Compare? Margaret Dziadosz, Terri-Ann Bennett, Cara Dolin, Sarah Pivo, Sarah Lee, Annie West Honart, Ashley Smith Roman

2380773 Do Decreases in Estimated Fetal Weight Percentile on Ultrasound Between the Second and Third Trimesters Impact Neonatal Outcomes in Normally Grown Fetuses? Jennifer Amorosa,* Felipe Tudela, Luciana Vieira, Kelly Zafman, Eric Bergh, Katherine Connolly, Kathy Matthews, Meredith Miller, Angela Bianco

2381625 Sonographic Measurements of Amniotic Fluid Volume in Normal Singleton Pregnancies in North-Western Nigeria Nasir Alhassan, Kabiru Isyaku, Idris Kazaure, Suwaid Abba, Shehi Abubakar, Nura Idris, Mansir Yahuza Adamu

2384833 Fetal Penile Measurements in a Racially Mixed Population Roger Newman,* Lori Cruze, Elizabeth Unai, James Kiger, Jeffery Korte
Obstetric Ultrasound: General

2348862  Middle Cerebral Artery Doppler Ultrasound May Not Be Predictive of Fetal Anemia in Fetuses With Alpha Thalassemia
Shareece Davis-Nelson,* Yvonne Gollin

2351574  Multi-Vessel Doppler Assessment and Subsequent Prediction of Outcomes in the Appropriately Grown High-Risk Pregnancy
Niamh Condon

2351609  Polyhydramnios and Adverse Perinatal Outcomes: Comparing 2 Ultrasound Methods of Diagnosing Polyhydramnios and Their Association With Adverse Perinatal Outcomes
Tehila Avitan,* Jennifer Hutcheon, Chantal Mayer

2352402  Factors Impacting Completion of the Low-Risk Obstetric Ultrasound Anatomic Survey
Brady Coad, Grace Pariseau, Grace Stocker, Lisa Finch*

2361584  Perimortem Demonstration and Treatment of Recipient-to-Donor Transfusion in Monochorionic Diamniotic Twin Gestation
Jessica Parrott,* Carl Weiner

2361999  Influence of high-risk conditions on Doppler velocimetry
Niamh Condon

2364223  An Uncommon Presentation of a Common Problem: Aborting Tubal Ectopic Pregnancy Presenting as an Ovarian Ectopic Pregnancy
Rami Farhat,* Samia Sayegh, Sabrina Mahboob, Lisa David

2365959  A Different Treatment Approach for Congenital Cystic Adenomatoid Malformation Type 3
Mauro Saito, Juliana Gevaard Martins, Tatiana Pelegrini, Maria Raphaela Queiroz, Andre Malho, Ana Leticia Pontes

2369449  Twin Reversed Arterial Perfusion Sequence Treated by Aortic Sclerosis of the Acardiac Twin
Mauro Saito, Juliana Martins, Daniel Pinheiro, Kamille Said, Debra Silva, Rogerio Guidoni

2380527  Maternal Intitution of Fetal Gender
Michael McFadzen

2380731  Diurnal Changes in Fetal Umbilical Artery Blood Flow Parameters
Tehila Avitan,* Kenneth Lim, Dan Rurak, Meisan Brownlum, Ursua Brain, Tim Oberlander

2383165  Pregnant Women’s Expectations and Perceptions of Ultrasound in Northern Tanzania
Michael Bernaba,* Samuel Kaplan, Jacqueline Kuliwin, Kala Ghooray, Taylor Davis, Jamie Miller, Elsa Zhang, Maryte Gylys, Matthew Gunther, J. Christian Fox

238419  How Long do Sonograms Take When Performed by MFM Specialist, Radiologist, or General OB/GYN?
Boris Petrikovsky

2384955  The Effect of a Brief Ultrasound Training Session on the Proficiency of Medical Students in Obstetric Ultrasound Examination During a Core Clerkship
Jasmine Fu,* Elaine Hart, Reed Krause, Vi Am Dinh

2385748  Does the Presence of Abnormal Umbilical Artery Doppler Findings at the Time of Detailed Ultrasound Predict Adverse Outcomes in the Advanced Maternal Age Population?
Jessica Parrott,* Emily Clark, Mark Holland*

2385798  Is Second-Trimester Ultrasound Predictive of Extremes of Birth Weight?
Terri-Ann Bennett,* Margaret Dziadosz, Cara Dolin, Annie Honart, Sarah Pivo, Sara Lee, Ashley Roman

Obstetric Ultrasound: New Techniques

2361889  Delayed Postpartum Decrease in Inferior Vena Caval Diameter in Women With Persistent Severe Preeclamptic Hypertension
Celso Hernandez,* Kathryn Reed, Wayne Cohen

2379341  Prediction of Mode of Delivery at Term vs Second Trimester Cervical Makers Matter?
Margaret Dziadosz, Terri-Ann Bennett, Cara Dolin, Annie Honart, Sarah Lee, Sarah Pivo, Ashley Roman

2384612  Comparing Uptake of Noninvasive Prenatal Testing at 2 Centers in Lebanon
Reem Abu-Rustum,* Malek Nassar, M. Fouad Ziade

2385203  Comparison of the First-Trimester Transvaginal Anatomy Scan to the Second-Trimester Structural Survey in Obese and Nonobese Patient Populations: A Pilot Study
Anna McCormick,* Ramkrishna Mehendale, Heather Anaya, Louis Fogg, Michael Roche, Jacques Abramowicz

2385426  The Relationship between 3D Cervical Volume & Preterm Birth
Caroline Rouse, Nicole Smith, Sarah Easter, David Cantonwine, Thomas Shipp
E-POSTERS

Obstetric Ultrasound: Uterus, Placenta, and Cervix

2377936  Further Evidence that the Presence of "Sludge" Does Not Justify the Need for Amniocentesis to Rule Out Infection in Patients with a Short Cervix. Fereshteh Boozarjomehri, Margaret Dziadosz, Morgan Peltier, Fatima Boozarjomehri, Anthony Vintzileos, Ilan Timor-Tritsch, Frederick Naftolin

2378100  New Data on Pregnancy Outcome After Placement by a Single Operator of "High" Cerclage in Second Trimester Patients with a Sonographically Short Cervix. Fereshteh Boozarjomehri, Margaret Dziadosz, Marcos Cordoba, Morgan Peltier, Fatima Boozarjomehri, Anthony Vintzileos, Ilan Timor-Tritsch, Frederick Naftolin

2378298  Fifth Recurrent Cesarean Scar Pregnancy. Terri-Ann Bennett,* Cara Dolin, Margaret Dziadosz, Ming Tsai, Judith Chervenak, Ana Monteagudo, Ilan Timor-Tritsch

Pediatric Ultrasound

2374890  Diagnosis of Appendicitis With Point-of-Care Ultrasonography in Children: A Retrospective Review. Kay Odashima,* Eitan Dickman, Francis See, Emin Elezi, Samuel Kluger, Sean McGann, Maria Levine, Lawrence Haines, Mark Tessaro

2377786  Effect of Ultrasound as an Initial Imaging Modality in Children With Suspected Appendicitis. Stephen Alerhand,* Ee Tay

2385744  The Effect of Point-of-Care Ultrasound on Emergency Department Diagnosis and Management of Cellulitis Versus Local Allergic Reactions From Insect Bites. Jennifer Sanders,* Ee Tay

2385766  Diagnosis of Appendicitis with Point-of-Care Ultrasonography (POCUS) in Children: A Retrospective Review. Kay Odashima, Eitan Dickman, Francis See, Emin Elezi, Samuel Kluger, Sean McGann, Maria Levine, Lawrence Haines, Mark Tessaro

2386986  Beware! Inguinolabial Hernia Containing Reproductive Organs in Female Children Is Not as Rare as You Think. Anjum Bandarkar,* Eglal Shalaby-Rana, Adebunmi Adeyiga

2388097  Prediction of High-grade Vesicoureteral Reflux in Children Younger Than 2 Years Using Renal Ultrasonography: A Preliminary Study. Sun You,* Kyung-Sook Shin

Sonography: Data/Imaging Management

2385274  Screening Ultrasound in New York State Three Years of experience screening women with dense breast tissue. Stamatia Destounis

Sonography: Education and Training

2348321  Peer-Assisted Learning: A New Model for Medical School Ultrasound Education. Ben Lasure,* Brian Dilcher, Joseph Minardi

2366866  The Neck Is More Than the Thyroid Alone: 3-Dimensional Ultrasonography of Cervical Lymph Nodes, Salivary and Parathyroid Glands, and Palpable/Visible Abnormalities. Susan Frank,* David Gutman, Tova Koenigsberg

2363910  Integration of Head and Neck Ultrasound Into the First-Year Medical School Curriculum: A Pilot Study. Jane Dyball,* Michael Prats, David Bahner

2377851  Ultrasound-Guided Nodal Localization for Targeted Radiation Therapy in Breast Cancer Patients. Ezinne Lawson,* Benjamin Smith, Deanna Lane, Mark Dryden, Gary Whitman

2383103  Continued Optimization of a Sustainable Clinical Ultrasound Curriculum in Mwanza, Tanzania. Samuel Kaplan,* Morgan Kendall, Jamie Miller, Michael Bernaba, Taylor Davis, Kala Ghooray, Matthew Gunther, Maryte Gylys, Jacqueline Kulwin, Eilis Zhang, J. Christian Fox

2384827  Utilizing a Multimodal Approach in Teaching Medical Students Ultrasound-Guided Procedures. Cassandra Krause,* Reed Krause, Michael Douglas, Vi Am Dinh

2385030  Advanced Competency in Ultrasound for Undergraduate Medical Education. Ross McDermott,* Marcia Bockbrader, Krystin Bachman, David Bahner
E-POSTERS

2385291 Evaluation of Sophomore Medical Students’ Competencies in Image Recognition and Interpretation of Ultrasound Pathology: An Innovative Ultrasound Curriculum Developed at the Wayne State University School of Medicine
   David Ampsonsah

2385882 Effects of Ultrasound Training During Year 2 of Medical School on Year 3 Medical Students
   Reed Krause,* Cassandra Krause, Raymond Krause, Vi Am Dinh

2385893 Effectiveness of Animated Simulation for Teaching the Rapid Ultrasound for Shock Protocol and Hypotension to Medical Students
   Reed Krause,* Michael Douglas, Drew Sheldon, Vi Am Dinh

2386074 Ultrasound Immersion Week: An Innovative Approach to Instructing Medical Students in Ultrasound
   Manickam Kumaravel,* Varun Rachakonda

2387786 Posttraumatic Arteriovenous Malformation of the Neck: B-Mode Sonographic, Color Doppler Sonographic, and Magnetic Resonance Imaging Findings
   Hasan Yerli

Sonography: Practice Management

2378473 Institutional Ultrasound Topography Mapping the Landscape of Ultrasound
   Michael Prats, Tyler Dschaak, Sara Singhal, Michael Barrie, Creagh Boulger, David Bahner

2385745 A Pictorial Display of Inflammatory Bowel Disease on Sonography: Its Diagnosis, Activity, and Complications
   Christina Merrill,* Alexandra Medellin-Kowalewski, Stephanie Wilson

Therapeutic Ultrasound

2384940 Up-Classification of Suspicious Breast Masses Using Opto-acoustic Imaging
   Philip Lavin, Anthony Stavros, Michael Ulissey

2385067 Maturation of Lesions Induced by Myocardial Cavitation-Enabled Therapy
   Xiaofang Lu,* Douglas Miller, Chunyan Dou, Yiyng Zhu, Mario Fabilli, Gabe Owens, Oliver Kripfgans

In Appreciation

The American Institute of Ultrasound in Medicine (AIUM) extends its greatest appreciation to the companies listed below. Their monetary support enables the AIUM to continue its mission of advancing the safe and effective use of ultrasound in medicine, and their collaboration provides the framework for dialogue on emerging issues. Together, we ensure a bright and positive future for medical ultrasound.

Alliance for Physician Certification and Advancement (APCA)
1401 Rockville Pike, Suite 600 Booth 2219
Rockville, MD 20852 USA
E-mail: cchung@ardms.org

The Alliance for Physician Certification and Advancement (APCA) is a nonprofit organization that administers examinations and awards certifications in the areas of physician vascular interpretation (RPVI and RPVI-China), musculoskeletal sonography (RMSK), and cardiovascular imaging (CBNC and CBCCT). The RPVI and RMSK certifications are accredited by ANSI-ISO 17024. In 2016, the APCA will begin awarding certificates in the areas of point-of-care ultrasound as well as abdominal* and obstetric and gynecologic sonography* (*exclusively for physicians in Latin America). The APCA has more than 21,000 certified physicians throughout the world and is part of the nonprofit Inteleos family of certification organizations.

Alpinion Medical Systems USA
21312 30th Dr SE, Suite 100 Booth 1305
Bothell, WA 98021 USA
Phone: 425-949-4900
E-mail: julian.lee@alpinionusa.com
Website: http://www.AlpinionUSA.com

Alpinion Medical Systems is a leader in the development and production of diagnostic, research, and therapeutic ultrasound. The company offers diagnostic ultrasound systems for general imaging, women’s health, cardiology, and musculoskeletal/head and neck. Winner of the Red Dot Design Award and iF Design Award for excellence in product innovation, our E-Cube portfolio of diagnostic ultrasound platforms ranges from premium to portable systems. Our innovative E-Cube 12R ultrasound research platform (Food and Drug Administration 510K) combines a premium clinical ultrasound system with a dedicated ultrasound research platform, allowing researchers to create more valuable clinical studies. Additionally, our preclinical high-intensity focused ultrasound (HIFU) systems, VIFU 2000 and ALPIUS 900, are designed for a wide range of ultrasound-guided HIFU applications within animal research. For more information please visit AlpinionUSA.com.

American Registry for Diagnostic Medical Sonography (ARDMS)/Ultrasound Jobs
1401 Rockville Pike, Suite 600 Booth 2219
Rockville, MD 20852 USA
Phone: 800-541-9754
Fax: 301-738-0312
E-mail: cchung@ardms.org
Website: http://www.ardms.org

The American Registry for Diagnostic Medical Sonography (ARDMS) is a nonprofit organization that administers examinations and awards certifications in the areas of diagnostic medical sonography (RDMS), diagnostic cardiac sonography (RDCS), vascular technology (RVT), and musculoskeletal sonography (RMSKS). ARDMS credentialing programs are accredited by ANSI-ISO 17024. The ARDMS has more than 85,000 certified sonographers throughout the world and is the recognized international standard in sonography credentialing. The ARDMS is part of the nonprofit Inteleos family of certification organizations.

American Registry of Radiologic Technologists (ARRT)
1255 Northland Dr Booth 2500
St Paul, MN 55120-1155 USA
Phone: 651-687-0048
E-mail: kathy.hendricks@arrt.org
Website: http://www.arrt.org

The American Registry of Radiologic Technologists (ARRT) sonography certification covers a wide scope of practice with just 1 exam and has eligibility pathways for practicing sonographers as well as for recent graduates of educational programs. Developed by practicing sonographers, educators, ultrasound physicians, and physicists, the 400-question exam is designed to be clear and complete. It covers the Joint Review Commission on Education in Diagnostic Medical Sonography–approved sonography curriculum and spans a spectrum of procedures, including abdomen and pelvis, obstetrics and gynecology, and more. ARRT certification provides qualified confidence for sonographers, their employers, and—ultimately—patients.
2016 EXHIBITORS

AS Software, Inc
560 Sylvan Ave
Englewood Cliffs, NJ 07632 USA
Phone: 201-541-1900
Fax: 201-541-1199
E-mail: slewis@as-software.com
Website: http://www.as-software.com

AS Software, Inc, delivers state-of-the-art ultrasound reporting and image management designed for obstetrics and gynecology, maternal-fetal medicine, radiology, and vascular medicine. It is a scalable and robust solution utilizing a structured clinical database to efficiently manage ultrasound information. AS-OBGYN is designed to be intuitive and easy to use. AS-OBGYN seamlessly integrates with your health information systems (eg, hospital information systems, radiology information systems, picture archiving and communication systems, electronic health records, and electronic medical records) to enable interoperability across platforms. AS-OBGYN is Food and Drug Administration 510(k) approved and Health Insurance Portability and Accountability Act compliant.

BK Ultrasound
8 Centennial Dr
Peabody, MA 01960 USA
Phone: 978-326-1300
Fax: 978-326-1399
E-mail: drogne@bkultrasound.com
Website: http://www.bkultrasound.com

For 30 years, BK Ultrasound has played a leading role in procedure-driven markets, including urology, surgery, and point of care. With award-winning systems and unique transducer designs, BK directly addresses the specialized needs and challenges of clinicians worldwide, offering unsurpassed imaging capabilities enabling real-time image guidance with easy-to-use, mobile platforms.

MedaPhor (AIM:MED) is a global provider of advanced ultrasound skills-training simulators for medical professionals. Founded in 2004, the company is headquartered in Cardiff, Wales, and San Diego, California, with customers in more than 16 countries across the world. ScanTrainer Professional, Medaphor’s market-leading ultrasound skills-training simulator, offers a realistic ultrasound scanning learning experience that combines “real-feel” haptic technology with real full-anatomy patient scans, real-time one-to-one expert guidance, and curriculum-based teaching. The system offers trainees a flexible self-learning experience without the need for patients and with minimal requirements for expert supervision, making ScanTrainer Professional both resource efficient and highly cost-effective. ScanTrainer Professional’s subscription-based Cloud 2 service offers ScanTrainer users access to the Case Generation Engine, which enables them to upload and publish their own patient scans and share these with other Cloud 2 subscribers within their organization or around the world. Cloud Case Library offers users flexible cloud access to a growing library of more than 200 normal and abnormal cases created using real patient scans. For more information, please visit www.medaphor.com, follow us on Twitter @ScanTrainer, join our LinkedIn company page, or like us on Facebook.

Society for Maternal-Fetal Medicine (SMFM)
409 12th St SW
Washington, DC 20024 USA
E-mail: jspitz@perinatalquality.org

The Society for Maternal-Fetal Medicine (SMFM) formed the Perinatal Quality Foundation (PQF) as an independent nonprofit 501(c)(3) organization in 2004. The mission of the PQF is to improve the quality of obstetric medical services by providing state-of-the-art educational programs and evidence-based, statistically valid monitoring systems to evaluate current practices and facilitate the transition of emerging technologies into clinical care. The PQF is committed to disseminating consensus practice protocols and to providing clinician and provider education, monitoring measures, and consensus discussions on emerging obstetric technologies. The strength of the PQF is its ability to bring together experts, thinkers, and leaders devoted to maternal and fetal health to reflect on, select, and implement programs to facilitate quality perinatal patient care. The PQF initiated the Nuchal Translucency Quality Review (NTQR) program in 2005. The Cervical Length and Education Review (CLEAR) program was begun in 2011, the Fetal Monitoring Credentialing (FMC) program in 2013 and the Genetic Education Module (GEM) in 2016. Information and details about all of the programs may be found at the AIUM exhibit booth or at http://www.perinatalquality.org.

Sound Technology, Inc
401 Science Park Rd
State College, PA 16803 USA
Phone: 814-235-3740
E-mail: rick.edminston@sti-ultrasound.com

Sound Technology, Inc (STI), located in State College, Pennsylvania, and a subsidiary of Analogic Corporation, is a global leader in the development and production of medical ultrasound probes for original equipment manufacturers (OEMs). Founded in 1987, STI has consistently provided our customers with technically superior probe designs for demanding OEM and end-user requirements. These designs include a complete portfolio of medical ultrasound probes for a wide range of applications, including radiology, cardiology, obstetrics, gynecology, urology, and surgery. From the initial design phase through production release, STI’s Probe Development Team works closely with our customers to exceed all performance requirements, achieve optimal integration between our probes and ultrasound systems, and provide creative ergonomic solutions for the comfort of both sonographers and patients. This dedication to design and technical excellence has resulted in our highly respected reputation among the world’s leading manufacturers of medical ultrasound systems. Using Analogic’s expanded manufacturing operations in Shanghai, China, STI can now offer custom probe cable assemblies to OEMs. Your custom cable designs are developed by our Cable Development Team in State College and then transferred to Analogic’s Shanghai manufacturing facility to provide our customers with the best possible cost solutions. STI’s Business Development Team looks forward to discussing your needs for ultrasound probe and probe cable assembly solutions to improve your image in the ultrasound market.

SuperSonic Imagine
2625 Weston Rd
Weston, FL 33331 USA
Phone: 954-660-3528
Fax: 954-697-8200
E-mail: carrie.rodriguez@supersonicimagine.com
Website: http://www.supersonicimagine.com

SuperSonic Imagine is an innovative ultrasound imaging company that has developed a revolutionary ultrasound system: the Aixplorer. Aixplorer is the only system on the market with an UltraFast Imaging platform that ensures impeccable image quality and 2 breakthrough technologies: ShearWave Elastography (SWE) and UltraFast Doppler (UFD). SWE is the only Food and Drug Administration–cleared technology that measures shear wave velocity in real-time. SWE displays local tissue elasticity on a color-coded map in kilopascals. UFD unites color flow imaging with pulsed wave Doppler. Three seconds of scanning renders high-quality flow information, ultrafast color frame rates without compromises, and complete spectral Doppler analysis.

Telexy Healthcare, Inc
11830 223rd St
Maple Ridge, BC V2X-5-Y1, Canada
Phone: 604-343-6325
Fax: 425-310-8149

3D Systems Healthcare solutions enhance quality of life through the use of 3-dimensional (3D) printing, surgical planning, and personalized medical technologies. We are dedicated to helping medical professionals train for, plan, practice, and perform complex medical procedures and achieve better patient outcomes. 3D Systems develops innovative and effective simulation products and solutions for the education and training of medical professionals. Visit our booth to experience the U/S Mentor advanced virtual reality simulator for the training of ultrasound-related examinations. This product offers multidisciplinary, realistic hands-on training for the ever-growing utilization of ultrasound in medicine at point-of-care, obstetrics and gynecology, and other settings. It provides medical students, residents, fellows, practicing physicians, sonographers, and others an opportunity to acquire and improve their technical, procedural, and diagnostic skills in various fields, including basic and advanced echocardiography, emergency medicine, thoracic-abdomen, transesophageal echocardiography, obstetrics and Gynecology, and more. 3D Systems’ training products are developed by an experienced research and development team in collaboration with global medical experts. Simulators in more than 70 countries are supported by our world-class customer support center, which is available 24/7 to provide the most responsive service available. To learn more about the U/S Mentor and other available simulators, visit www.simbionix.com, or contact us at simbionix@3dsystems.com.

Toshiba America Medical Systems, Inc
2441 Michelle Dr
Tustin, CA 92780-7043 USA

Tricefy—The Cloud Platform for Ultrasound. Trice has simplified image management while enabling you to share and collaborate like never before. Our cost-effective service allows users to access ultrasound studies from anywhere and share examination results with colleagues, experts, and patients instantly via text and e-mail.
In 1981, the University of California San Francisco (UCSF) was the first institution in the world to successfully perform open fetal surgery. Our continuous pursuit of innovation and discovery has included milestones such as the first successful open fetal surgery for urinary tract obstruction, congenital diaphragmatic hernia, and tumors causing life-threatening conditions; the design and use of a uterine stapling device for fetal surgery; the introduction of fetoscopic repair of fetal spina bifida; and participation in more fetal surgery clinical trials than any other institution. About 500 families come to our center each year, and our patients have access to an experienced multidisciplinary team that is specially trained to identify and diagnose rare fetal anomalies. Many of these advanced diagnostic tools were pioneered at UCSF. The Fetal Treatment Center is part of the Division of Pediatric Surgery at UCSF Benioff Children's Hospital San Francisco, which is dedicated to providing expert surgical care for fetuses, infants, children, and adolescents with congenital and acquired conditions. We have also partnered with the UCSF Pediatric Heart Center to create the Fetal Cardiovascular Program, which performs sophisticated imaging as early as the late first trimester to assess and manage both fetal and pediatric heart conditions.

UltraLinq Healthcare Solution, Inc

Website: http://www.verasonics.com

Verasonics designs, manufactures, and sells revolutionary ultrasound research technologies for academic and commercial investigators. This real-time, software-based ultrasound system provides unsurpassed control to simplify data collection and analysis processes, facilitating accelerated research and development. Verasonics licenses its technology, sells research systems and software components, and provides consulting services in the newest imaging and Doppler techniques for detection, diagnosis, analysis, intervention, monitoring, and therapy. Key areas of application support: photoacoustics, high-intensity focused ultrasound, high-frequency ultrasound, functional imaging, vector Doppler, acoustic radiation force impulse, and elastography, as well as a variety of other innovative and conventional imaging modes.
Recontamination. Why risk it?

Protect your intracavity and surface ultrasound probes from recontamination after high level disinfection.

New Clean Ultrasound Probe Covers are custom designed to help you:

- **Meet the requirements** of CDC and TJC guidelines and recommendations\(^1\)
- **Deliver best practice care** by protecting the entire probe – including the handle
- **Enable fast workflows** – store probes conveniently at the point of care ready for immediate reuse

A simply smarter solution for ultrasound probe storage

---

\(^1\) The Joint Commission expects guidelines such as ANSI/AAMI ST58:2013 to be met. These state “high level disinfected items should be protected from contamination until the item is delivered to the point of use”. The CDC and the FDA are now alerting healthcare providers and facilities about the need to properly maintain, clean, and disinfect or sterilize reusable medical devices. All healthcare facilities with reusable medical devices are being urged to review their practices to ensure they comply with device manufacturers’ instructions and current standards and guidelines.
Just as **TOUGH** as ever.
Only **FASTER**.

Eliminates 99.9% of bacteria in 15 seconds.
Disinfects in just 4 minutes.

- Effective on 40 different pathogens
- Starts killing on contact
- Cleans AND disinfects in one easy step
- Will not harm most hard, nonporous surfaces
- Will not leave dull or sticky residue
- Alcohol, bleach, and solvent-FREE
- STAY PUT adhesive backing adheres to mobile equipment for ULTRA convenience *(softpack only)*

Visit [www.parkerlabs.com/protex-ultra](http://www.parkerlabs.com/protex-ultra) for a complete list of uses.
Protex ULTRA not available for sale in Europe or Canada.
