Detailed Anatomy Example Images
Fetal position cephalic, cervix, and placenta
Fetal position breech, cervix
Situs breech
Placental cord insertion
Placental cord insertion: Velamentous example
Right ovary
please note: measurements are not required
Left ovary

please note: measurements are not required
Upper uterus, posterior placenta, Example DVP of amniotic fluid – not required
Lateral ventricles
Lateral ventricles with measurement
Bilateral choroid plexus
Midline falx, Cavum septi pellucidum (CSP)
AC, Stomach
Bilateral Femur with FL
corpus callosum
Nuchal Fold
Cerebellum measurement
Cerebellum, cisterna magna
Cerebellar vermis
Another example cerebellar vermis
4th ventricle/Cerebellar vermis
Integrity and shape of cranial vault
multiple examples
Integrity and shape of cranial vault
continued examples
3rd ventricle
Upper lip/nose
Lenses
Orbits/Lenses
Profile (w/ NB, CC, CBL, Vermis)
Nasal Bone Measurement
Profile and Mandible
Mandible
Maxilla/palate
Tongue
Neck
Neck continued examples

Sagittal Neck

Transverse Neck
Biometry of orbits- outer to outer
Biometry of orbits- inner to inner
Lungs

[Image: Ultrasound scan showing the right and left lungs with annotations for vertebrae and lung fields.]
Another Diaphragm example
Kidneys

Transverse

Sagittal
Kidneys continued examples
Kidneys- with renal arteries
Adrenals
Adrenal continued example
Spleen
Liver
Liver, Umbilical Vein and Stomach
Bladder, 3VC
Abdominal Cord Insertion
FHR M-mode
4 Chamber heart
4 Chamber heart
Ductal Arch View
RVOT short axis
LVOT
Aortic arch
IVC/SVC
Another example IVC/SVC
Another example 3VV
3V trachea view
Another example 3V trachea view
Transverse spine
Long Spine
Example coronal lower spine
Humerus
Hands/digits

numbering is not required
Lower extremity

Example of Architecture - foot to lower leg
Tibia/fibula
Feet/toes
Feet/toes
Gallbladder
Gallbladder
Fetal Sex/Female
Fetal Sex/Male
