

Attestation of Satisfactory Completion of AIUM Physician Training Guidelines

Complete the following page as it pertains to your practice accreditation application.
{**Only initial statements that are applicable to you.**}

1.) Within the last **36 months**, I have obtained the appropriate number of CMEs in the specialty area(s) that I interpret for the practice as defined in the [specialty specific training guidelines](#). (Proof of CME credits not obtained through the AIUM is required.)

{Initial if applicable} _____

2.) Within the last **36 months**, I performed and/or interpreted the appropriate number of ultrasound examinations* in all relevant specialty areas that apply to our practice accreditation application. Refer to [specialty specific training guidelines](#).

{Initial if applicable} _____

3.) I have a certification in radiology, diagnostic radiology, or another certification (i.e ECNU, Rhmsus, ASBS) that satisfies the [training guidelines](#) in the area(s) I interpret for the practice.

{Initial if applicable} _____

4.) I had structured training during my residency, fellowship or other postgraduate training under the direction of a qualified physician(s)**. **Circle all specialties that apply to the current application:**

OB-Standard; OB-Detailed; Fetal Echo; GYN-Standard; 3D-GYN; Abdomen/General; Breast; Thyroid; Head & Neck; Urology; MSK-Diagnostic; MSK-Interventional; USGANesthesia

{Initial if applicable} _____

5.) I **did not** have structured training in ultrasound and therefore, I have met the additional requirements outlined in the appropriate [specialty specific training guidelines](#). **Provide name of applicable specialty** _____

{Initial if applicable} _____

Physician Name: _____

Signature: _____ Date _____

*Cases presented as preselected, limited image sets such as in lectures, case conferences and teaching files are excluded. The ability to analyze a full image set, determine its completeness and the adequacy of image quality, and perform the diagnostic process, distinguishing normal from abnormal is considered a primary goal of the training experience.

** A qualified physician is one who, at minimum, meets the criteria defined in the specialty specific training guideline: <http://www.aium.org/resources/ptGuidelines.aspx>

For those seeking accreditation in Obstetrical Ultrasound, the "Limited Ultrasound" as defined by AIUM (<http://www.aium.org/officialStatements/19>) does not count towards the training volume.
