

ERRATUM

This document references the Standard for Real-Time Display of Thermal and Mechanical Acoustic Output Indices on Diagnostic Ultrasound Equipment. The AIUM has withdrawn this standard in favor of two IEC standards to which AIUM contributed by providing financial and other support for United States representatives on the relevant IEC working groups as well as committee review and discussion of draft standards:

1. IEC 60601-2-37, Medical electrical equipment – Part 2-37: Particular requirements for the safety of ultrasonic medical diagnostic and monitoring equipment, ed. 2.0, International Electrotechnical Commission, 2007.
2. IEC 62359, Ultrasonics – Field characterization – Test methods for the determination of thermal and mechanical indices related to medical diagnostic ultrasonic fields, ed. 2, International Electrotechnical Commission, 2010.

Please replace references to the withdrawn standard with these two IEC standards.
